

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kris Fassler
DOCKET NO.: 17-39111.001-R-1
PARCEL NO.: 27-30-207-009-0000

The parties of record before the Property Tax Appeal Board are Kris Fassler, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,751
IMPR.: \$50,409
TOTAL: \$57,160

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 3,929 square feet of living area. The dwelling is approximately 19 years old. Features include a full unfinished basement, central air conditioning, a fireplace and a three-car garage. The property has an 11,252 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends both overvaluation and lack of assessment uniformity as the bases of the appeal.

In support of the overvaluation argument, the appellant submitted information on four comparable sales that were located within the same neighborhood code as the subject and one of

which is on the same street as the subject. The comparables have lots ranging in size from 13,016 to 14,938 square feet of land area and were improved with similar class 2-08 dwellings of masonry or frame or masonry exterior construction. The comparables ranged in size from 3,866 to 4,187 square feet of living area and were either 16 or 19 years old. Each comparable has a full unfinished basement, central air conditioning, a fireplace and a three-car garage. The comparables sold from July 2016 to October 2017 for prices ranging from \$469,000 to \$555,000 or from \$112.01 to \$141.51 per square foot of living area, including land.

In support of the inequity argument, the appellant submitted information on four comparables located within the same neighborhood code as the subject and within .64 of a mile from the subject. The comparables consist of two-story class 2-08 dwellings of masonry or frame and masonry exterior construction. The dwellings range in age from 1 to 23 years old. The dwellings range in size from 3,876 to 4,314 square feet of living area. Each comparable has a full basement, two of which have formal recreation rooms. Each dwelling has central air conditioning, one or two fireplaces and either a 3-car or 3.5-car garage. The comparables have improvement assessments ranging from \$31,480 to \$50,474 or from \$7.99 to \$12.28 per square foot of living area.

Based on this evidence, the appellant requested that the subject's total assessment be reduced to \$46,243 which would reflect a total market value of \$462,430 or \$117.70 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%. The requested reduced improvement assessment of \$39,492 would reflect an assessment of \$10.05 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$57,160. The subject's assessment reflects a market value of \$571,600 or \$145.48 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%. The subject property has an improvement assessment of \$50,409 or \$12.83 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables with both sales and equity data that were located within the same neighborhood code as the subject. The comparables have lots ranging in size from 12,261 or 15,750 square feet of land area and were improved with similar class 2-08 two-story dwellings of masonry or frame and masonry exterior construction. The comparables ranged in size from 3,824 to 3,913 square feet of living area and range in age from 4 to 24 years old. Each comparable has a full or partial basement, one of which has a formal recreation room. Each comparable has central air conditioning, one or two fireplaces and either a two-car or a three-car garage. The comparables sold from June 2015 to August 2017 for prices ranging from \$630,000 to \$767,000 or from \$161.00 to \$196.26 per square foot of living area, including land. The comparables have improvement assessments ranging from \$49,958 to \$62,609 or from \$13.06 to \$16.00 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment on both market value and equity grounds.

Conclusion of Law

The appellant contends, in part, that the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable sales to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the board of review comparables #3 and #4 due to their newer dates of construction when compared to the 19 year old subject dwelling and comparable #4 sold in 2015, a date more remote in time to the valuation date at issue and not as recent as other more similar comparable sales in the record.

The Board finds the best evidence of market value to be the appellant's comparable sales along with board of review comparable sales #1 and #2. These most similar comparables range in age from 14 to 24 years old and present similar designs, dwelling sizes and/or most features. These properties sold from June 2016 to October 2017 for prices ranging from \$469,000 to \$640,000 or from \$112.01 to \$165.40 per square foot of living area, including land. The subject's assessment reflects a market value of \$571,600 or \$145.48 per square foot of living area, including land, which is within the range of the best comparable sales in this record in terms of both overall value and on a per-square-foot basis. Based on this evidence and after considering adjustments to the best comparable sales for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

Additionally, the taxpayer contends assessment inequity with regard to the improvement as another basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to appellant's comparable #3 along with board of review comparables #3 and #4 due to differences in age as compared to the subject dwelling that is approximately 19 years old.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2 and #4 along with board of review comparables #1 and #2. These five comparables are each relatively similar to the subject in location, age, size, foundation and most features. The comparables had improvement assessments that ranged from \$31,480 to \$52,367 or from \$7.99

to \$13.50 per square foot of living area. The subject's improvement assessment of \$50,409 or \$12.83 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified based upon a lack of assessment uniformity.

In conclusion, having examined the entire record, the Board finds that no change in the subject's assessment is warranted based either upon grounds of overvaluation or assessment inequity.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
