

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Cobbins  
DOCKET NO.: 17-39581.001-R-1  
PARCEL NO.: 29-30-402-059-0000

The parties of record before the Property Tax Appeal Board are Richard Cobbins, the appellant, by attorney Peter D. Verros of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$1,706  
**IMPR.:** \$14,995  
**TOTAL:** \$16,701

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 2,352 square feet of living area. The dwelling is approximately 55 years old and features a concrete slab foundation. The property has a 5,250 square foot site and is located in East Hazel Crest, Thornton Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located from 2.3 to 2.7 miles from the subject property, none of which are within the subject's neighborhood code. The comparables are improved with similar class 2-11 two-story multi-family dwellings of masonry exterior construction ranging in size from 2,024 to 2,600 square feet of living area. The dwellings range in age from 98 to 105 years old. Each

comparable has a full basement with two finished as formal recreation rooms. Comparable #3 has a fireplace and a two-car detached garage. The comparables have improvement assessments that range from \$6,835 to \$8,798 or \$3.38 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$7,950 or \$3.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$16,701. The subject property has an improvement assessment of \$14,995 or \$6.38 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code and block as the subject property. The comparables are improved with similar class 2-11 two-story multi-family dwellings of masonry exterior construction, each with 2,352 square feet of living area. The dwellings are either 56 or 57 years old and have concrete slab foundations. The comparables have improvement assessments of \$14,920 and \$14,957 or \$6.34 and \$6.36 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables due to their locations being more than 2 miles from the subject and their dwellings being considerably older than the subject dwelling. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. These comparables are identical to the subject in dwelling size, design and features, although the dwellings are slightly older than the subject dwelling. The comparables have improvement assessments of \$14,920 and \$14,957 or \$6.34 and \$6.36 per square foot of living area. The subject's improvement assessment of \$14,995 or \$6.38 per square foot of living area falls slightly above the best comparables in this record but appears to be justified given its slightly newer age. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
