

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: H.S.H. Properties, LLC  
DOCKET NO.: 17-39594.001-R-1  
PARCEL NO.: 29-12-208-038-0000

The parties of record before the Property Tax Appeal Board are H.S.H. Properties, LLC, the appellant, by attorney Gregory P. Diamantopoulos of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$2,000  
**IMPR.:** \$15,618  
**TOTAL:** \$17,618

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 2,756 square feet of living area. The dwelling is approximately 48 years old. Features of the home include a full basement with finished area and a two-car garage. The property has a 5,000 square foot site and is located in Calumet City, Thornton Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject and from .1 to .4 of a mile from the subject property. The comparables are improved with class 2-11 two-story multi-family dwellings of frame and masonry exterior construction with 2,756 or 2,910 square feet of

living area. The dwellings are either 46 or 49 years old. Each comparable has a full or partial basement, two of which have finished area and each comparable has either a one-car or a two-car garage. The comparables have improvement assessments that range from \$11,900 to \$12,629 or from \$4.32 to \$4.42 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$11,989 or \$4.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,618. The subject property has an improvement assessment of \$15,618 or \$5.67 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code and block as the subject property. The comparables are improved with class 2-11 two-story multi-family dwellings of masonry exterior construction, each with 2,756 square feet of living area. The dwellings range in age from 46 to 49 years old. Each comparable has a full unfinished basement and either a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$15,467 to \$16,679 or from \$5.61 to \$6.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board finds all of the comparables are similar, if not identical to the subject in dwelling size, design, age and features, except six of the comparables do not have finished basements like the subject, suggesting an upward adjustment for this feature would be required to these comparables to make them more equivalent to the subject. The comparables have improvement assessments that range from \$11,900 to \$16,679 or from \$4.32 to \$6.05 per square foot of living area. The subject's improvement assessment of \$15,618 or \$5.67 per square foot of living area is within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the subject's assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
