

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Holz
DOCKET NO.: 17-40047.001-R-1
PARCEL NO.: 20-14-202-061-0000

The parties of record before the Property Tax Appeal Board are Daniel Holz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,078
IMPR.: \$40,279
TOTAL: \$46,357

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of masonry exterior construction with 1,996 square feet of living area. The townhome is approximately 55 years old. Features of the home include a full basement with finished area and central air conditioning. The property has a 1,842 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with similar class 2-95 townhomes of masonry exterior construction ranging in size from 2,362 to 2,789 square feet of living area. The dwellings range in age from 25 to 51 years old. The comparables have

partial or full basements, three of which have finished area. Each comparable has central air conditioning. Two comparables each have one or two fireplaces and a one-car or a two-car garage. The comparables have improvement assessments ranging from \$27,878 to \$40,206 or from \$11.80 to \$14.57 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$26,846 or \$13.45 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,357. The subject property has an improvement assessment of \$40,279 or \$20.18 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with two-story townhomes of masonry construction each containing 1,996 square feet of living area. The comparables are each 55 years old. Each comparable has a full basement with finished area and central air conditioning. Each comparable has an improvement assessment of \$41,196 or \$20.64 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to their newer ages and/or larger dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables are identical to the subject property in location, design, exterior construction, age, dwelling size, basement and most features. These comparables have improvement assessments of \$41,196 or \$20.64 per square foot of living area. The subject's improvement assessment of \$40,279 or \$20.18 per square foot of living area falls below the assessments of the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
