

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Shibu  
DOCKET NO.: 17-40078.001-R-1  
PARCEL NO.: 04-32-401-111-0000

The parties of record before the Property Tax Appeal Board are David Shibu, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,590  
**IMPR.:** \$53,259  
**TOTAL:** \$57,849

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 5,898 square feet of living area. The dwelling is approximately 44 years old. Features of the home include a full basement with an apartment. The property has a 7,063 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar class 2-11 dwellings of masonry or frame and masonry exterior construction each containing 5,898 square feet of living area. The dwellings are either 44 or 45 years old. Each comparable has a full basement with an apartment. The comparables

have improvement assessments ranging from \$43,854 to \$46,417 or \$7.44 and \$7.87 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$44,707 or \$7.58 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$57,849. The subject property has an improvement assessment of \$53,259 or \$9.03 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two, two-story and one, three-story dwellings of masonry or frame and masonry exterior construction containing either 5,898 or 7,020 square feet of living area. The dwellings range in age from 25 to 45 years old. Two comparables each have a full basement with an apartment and one comparable has a concrete slab foundation. The comparables have improvement assessments ranging from \$56,385 to \$70,189 or from \$9.56 to \$10.00 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six suggested comparables for the Board's consideration. The Board gives less weight to the board of review's comparable #1 due to its dissimilar design, larger dwelling size and lack of a basement when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables as they are identical or nearly identical to the subject in location, design, age, dwelling size, basement and features. These comparables have improvement assessments ranging from \$43,854 to \$57,051 or from \$7.44 to \$9.67 per square foot of living area. The subject's improvement assessment of \$53,259 or \$9.03 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
