

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Mui
DOCKET NO.: 17-40088.001-R-1
PARCEL NO.: 04-17-308-003-0000

The parties of record before the Property Tax Appeal Board are Stephen Mui, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,582
IMPR.: \$60,605
TOTAL: \$76,187

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 4,171 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a three-car garage. The property has a 14,840 square foot site and is located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-08 dwellings of frame and masonry exterior construction ranging in size from 3,838 to 4,174 square feet of living area. The dwellings range in age from

25 to 45 years old. Each comparable has a full unfinished basement, central air conditioning, one or two fireplaces and either a two-car or a three-car garage. The comparables have improvement assessments that range from \$40,453 to \$46,944 or from \$10.54 to \$11.29 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$45,672 or \$10.95 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$76,187. The subject property has an improvement assessment of \$60,605 or \$14.53 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-08 dwellings of frame or frame and masonry exterior construction ranging in size from 3,839 to 4,267 square feet of living area. The dwellings range in age from 10 to 27 years old. Each comparable has a full basement with one finished as a formal recreation room. The comparables each have central air conditioning, a fireplace and either a 3-car or a 3.5-car garage. The comparables have improvement assessments that range from \$67,804 to \$75,925 or from \$16.30 to \$18.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided seven suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to appellant's comparables and board of review comparable #4 as each dwelling is considerably older than the subject dwelling. The Board gives reduced weight to board of review comparable #3 as it has a finished basement, unlike the subject's unfinished basement. The Board finds the best evidence of assessment equity to be board of review comparables #1 and #2. These comparables are similar to the subject in dwelling size, design, age and features. The comparables have improvement assessments of \$67,804 and \$75,925 or \$17.66 and \$18.49 per square foot of living area, respectively. The subject's improvement assessment of \$60,605 or \$14.53 per square foot of living area is below the two best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
