

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Cheriyan
DOCKET NO.: 17-40137.001-R-1
PARCEL NO.: 04-32-401-101-0000

The parties of record before the Property Tax Appeal Board are George Cheriyan, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,693
IMPR.: \$49,720
TOTAL: \$58,413

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of frame and masonry exterior construction with 5,898 square feet of building area. The building is approximately 45 years old and features a full basement with apartment finish. The property has a 13,374 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of masonry or frame and masonry exterior construction with either 5,898 or 6,792 square feet of building area. Two comparables have concrete slab foundations and two comparables have full basements with

apartment finish. The comparables have improvement assessments that range from \$43,854 to \$48,304 or from \$7.05 to \$7.44 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$42,819 or \$7.26 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,413. The subject property has an improvement assessment of \$49,720 or \$8.43 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same neighborhood code as the subject property. The comparables are improved with two-story, class 2-11 multi-family buildings of masonry or frame or masonry exterior construction with either 4,928 or 5,898 square feet of building area. Each building is 45 years old and has a full or a partial basement with apartment finish. The comparables have improvement assessments that range from \$41,838 to \$56,385 or from \$8.49 to \$9.56 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested comparable properties to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables #1 and #2, as well as board of review comparables #1, #2 and #3 due to their dissimilar building sizes and/or concrete slab foundations when compared to the subject building which has full basement with apartment finish. The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4, along with board of review comparable #4. These comparables are identical to the subject in building size, design, age and features. The comparables have improvement assessments that range from \$43,854 to \$56,385 or \$7.44 and \$9.56 per square foot of building area. The subject's improvement assessment of \$49,720 or \$8.43 per square foot of building area is within the range established by the best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
