

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Shahir Ahang
DOCKET NO.: 17-40235.001-R-1
PARCEL NO.: 04-33-300-119-0000

The parties of record before the Property Tax Appeal Board are Shahir Ahang, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,691
IMPR.: \$61,046
TOTAL: \$75,737

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 3,356 square feet of living area. The dwelling is approximately 4 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces, and a 3.5-car garage. The property has a 14,333 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables located in the same neighborhood code as the subject. The comparables were improved with class 2-04 dwellings of frame and masonry or masonry exterior construction that range in age from 19 or 44 years old. Each comparable has either a full or a partial basement with two comparables having finish area, central air conditioning, one or two fireplaces and either a 2-car garage or a 3-car garage. The dwellings range in size from 2,831 to

3,676 square feet of living area and have improvement assessments ranging from \$40,059 to \$53,654 or from \$14.15 to \$14.87 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$48,796 or \$14.54 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$75,737. The subject property has an improvement assessment of \$61,046 or \$18.19 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables were improved with one-story class 2-78 dwellings of frame or frame and masonry exterior construction that range in size from 2,466 to 2,804 square feet of living area and are either 30 or 35 years old. Each comparable has a full unfinished basement, central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments that range from \$45,399 to \$51,601 or from \$18.40 to \$19.21 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #1 along with the board of review comparables as these properties differ in design when compared to the subject.

The Board finds that the best evidence of assessment equity is the appellant's comparables #2 and #3. These comparables have varying degrees of similarity when compared to the subject in age, dwelling size, and some features. These comparables have improvement assessments of \$45,785 and \$53,654 or \$14.60 and \$14.87 per square foot of living area. The subject property has an improvement assessment of \$61,046 or \$18.19 per square foot of living area, which is supported by the subject's superior amenities such as substantially younger age, larger basement, and larger garage. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
