

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ophir Tahor
DOCKET NO.: 17-41605.001-R-1
PARCEL NO.: 30-19-219-008-0000

The parties of record before the Property Tax Appeal Board are Ophir Tahor, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,825
IMPR.: \$3,245
TOTAL: \$6,070

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 1,177 square feet of living area. The dwelling is approximately 56 years old. Features of the home include a concrete slab foundation and central air conditioning. The property has an 8,073 square foot site and is located in Calumet City, Thornton Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables that have the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame and masonry or frame exterior construction that range in size from 1,147 to 1,388 square feet of living area and range in age from 56 to 61 years old. The comparables

have concrete slab foundations and 1.5-car or 2-car garages. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$1,448 to \$2,157 or from \$1.26 to \$1.66 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$6,070. The subject has an improvement assessment of \$3,245 or \$2.76 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same neighborhood code as the subject. The comparables are improved with one-story, class 2-03 dwellings of frame and masonry exterior construction with each containing 1,177 square feet of living area and are either 55 or 56 years old. The comparables have concrete slab foundations. One comparable has central air conditioning. Three comparables each have a two-car garage. The comparables have improvement assessments ranging from \$3,643 to \$4,701 or from \$3.10 to \$3.99 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration that are similar to the subject in location, age, design and foundation type. The Board gave less weight to the appellant's comparable #3 due to its larger dwelling size when compared to the subject and other comparables in the record.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which overall are most similar to the subject in dwelling size. However, five comparables lack central air conditioning and six comparables have garages in contrast to the subject which has central air conditioning and lacks a garage. These comparables have improvement assessments ranging from \$1,448 to \$4,701 or from \$1.26 to \$3.99 per square foot of living area. The subject has an improvement assessment of \$3,245 or \$2.76 per square foot of living area, which falls within the range established by the best comparables in this record and is well supported by board of comparable #3, the only comparable that lacks a garage like the subject. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
