

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Darrell Winbush
DOCKET NO.: 17-41633.001-R-1
PARCEL NO.: 32-13-103-016-0000

The parties of record before the Property Tax Appeal Board are Darrell Winbush, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,802
IMPR.: \$21,218
TOTAL: \$25,020

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,991 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full finished basement, central air conditioning, a fireplace and a three-car garage. The property has an 11,700 square foot site and is located in Lynwood, Bloom Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables, three of which are located within the same neighborhood code as the subject property. One comparable is also located within the same block as the subject. The comparables are improved with class 2-78, two-story dwellings of frame or frame and masonry exterior

construction ranging in size from 2,620 to 3,237 square feet of living area. The comparables range in age from 10 to 28 years old. Each comparable has a partial or a full basement with one having finished area, central air conditioning, and a two-car or a three-car garage. Four comparables each have a fireplace. The comparables have improvement assessments ranging from \$13,352 to \$19,755 or from \$4.39 to \$6.47 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$18,424 or \$6.16 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,020. The subject property has an improvement assessment of \$21,218 or \$7.09 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and the same block as the subject property. The comparables are improved with class 2-78, two-story dwellings of frame and masonry exterior construction ranging in size from 3,004 to 3,101 square feet of living area. The comparables are 13 or 16 years old. Each comparable has a full basement with one having finished area, central air conditioning, a fireplace, and a three-car garage. The comparables have improvement assessments ranging from \$22,602 to \$23,333 or from \$7.42 to \$7.52 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #3, #4 and #5 due to their dissimilar locations and/or older ages when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 as well as the board of review comparables. The comparables received greater weight because they are located on the same block as the subject and are also very similar to the subject in overall property characteristics. The comparables have improvement assessments ranging from \$16,079 to \$23,333 or from \$4.97 to \$7.52 per square foot of living area. The subject's improvement assessment of \$21,218 or \$7.09 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
