

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Suresh Patel
DOCKET NO.: 17-41638.001-R-1
PARCEL NO.: 06-21-106-009-0000

The parties of record before the Property Tax Appeal Board are Suresh Patel, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,450
IMPR.: \$34,566
TOTAL: \$40,016

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story frame dwelling with 3,582 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full basement with a recreation room, central air-conditioning, a fireplace, and a 3-car garage. The property has a 10,382 square foot site and is located in Streamwood, Hanover Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five comparable properties, all of which are located within the same neighborhood code as the subject property. The comparables consist of two-story class 2-78 dwellings of frame or frame and masonry exterior construction. The dwellings range from 10 to 31 years old and range in size from 3,432 to 3,727 square feet of

living area. Each comparable has a partial or full basement, one of which has a recreation room, central air conditioning, one or three fireplaces, and a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$26,530 to \$31,920 or from \$7.25 to \$8.58 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$28,154 or \$7.86 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,016. The subject has an improvement assessment of \$34,566 or \$9.65 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparable properties located within the same neighborhood code and on the same block as the subject. The comparables consist of similar two-story class 2-78 dwellings of frame exterior construction. All of the dwellings are 16 years old. Each comparable contains 3,582 or 3,158 square feet of living area and has a full unfinished basement, central air-conditioning, one fireplace, and a 3-car garage. The comparables have improvement assessments ranging from \$32,012 to \$38,000 or from \$10.14 to \$10.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity with respect to the improvement as a basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which differ from the subject in age and/or garage size.

The Board finds the best evidence of value in this record to be the board of review comparables which are located on the same block as the subject, identical in age to the subject, and nearly identical to the subject property in size, design, and features but for the lack of a basement recreation room. These comparables had improvement assessments ranging from \$32,012 to \$38,000 or from \$10.14 to \$10.80 per square foot of living area. The subject's improvement assessment of \$34,566 or \$9.65 per square foot of living area falls within the range established by the best comparables in this record on an overall basis but below the range on a per square foot basis. After considering adjustments to these best comparables for differences from the subject, the Board finds that the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
