

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter Moutidis
DOCKET NO.: 17-41703.001-R-1
PARCEL NO.: 10-27-412-051-0000

The parties of record before the Property Tax Appeal Board are Peter Moutidis, the appellant, by attorney Spiro Zarkos, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,479
IMPR.: \$24,567
TOTAL: \$30,046

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,498 square feet of living area. The dwelling is approximately 52 years old. Features of the home include a partial basement with finished area, central air conditioning and a 2-car garage. The property has a 6,642 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted a property characteristic sheet and grid analysis on four equity comparables located in the same neighborhood code and from 0.8 of a mile to 1.8 miles from the subject property. The comparables consist of multi-level class 2-34 dwellings of masonry or frame and masonry exterior construction that range in size from 1,467

to 1,602 square feet of living area. The comparables range in age from 45 to 56 years old. Each comparable has a partial basement with finished area, central air conditioning, and each comparable has a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$20,239 to \$23,286 or from \$13.63 to \$14.84 per square foot of living area. The appellant requested the improvement assessment be reduced to \$21,182 or \$14.14 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,046. The subject property has an improvement assessment of \$24,567 or \$16.40 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood code and in the subarea of the subject property. The comparables consist of multi-level class 2-34 dwellings of masonry exterior construction that range in size from 1,395 to 1,488 square feet of living area. The comparables range in age from 49 to 52 years old. Each comparable has a partial basement with finished area, central air conditioning, two comparables have a fireplace and each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$23,227 to \$29,168 or from \$16.65 to \$19.60 per square foot of living area. The board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #3 and #4 as these comparables are located over 1 mile from the subject property.

The Board finds the best evidence of assessment equity to be the remaining comparables. These comparables have varying degrees of similarity when compared to the subject in location, dwelling size, age, and features. These comparables had improvement assessments that ranged from \$20,239 to \$29,168 or from \$13.65 to \$19.60 per square foot of living area. The subject's improvement assessment of \$24,567 or \$16.40 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
