

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Alexopoulos  
DOCKET NO.: 17-42213.001-R-1  
PARCEL NO.: 04-33-101-066-0000

The parties of record before the Property Tax Appeal Board are William Alexopoulos, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,000  
**IMPR.:** \$33,595  
**TOTAL:** \$43,595

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,273 square feet of living area. The dwelling is 27 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a two-car garage. The property has a 10,000 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on eight comparables that have the same neighborhood code as the subject and are located within .42 of a mile from the subject. The comparables are improved with two-story dwellings of frame and masonry or masonry exterior construction that range in size from 2,053 to 2,683 square feet of living area

and range in age from 33 to 60 years old. The comparables each have a partial or a full basement with two having finished area. Six comparables have central air conditioning. Five comparables each have one fireplace. Each comparable has a one-car or a two-car garage. The comparables have improvement assessments ranging from \$26,309 to \$36,273 or from \$12.00 to \$13.55 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$29,087 or \$12.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,595. The subject has an improvement assessment of \$33,595 or \$14.78 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same neighborhood code. Three comparables are located within .25 of a mile from the subject and one comparable is located on the same block as the subject. The comparables are improved with class 2-78, two-story dwellings of masonry, frame and masonry, or frame exterior construction that range in size from 2,136 to 2,374 square feet of living area. The dwellings are 37 or 41 years old. The comparables each have a full unfinished basement, central air conditioning, one or two fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$34,371 to \$42,121 or from \$15.42 to \$18.43 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains twelve equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their differences in age and/or dwelling size when compared to the subject. Furthermore, two of the comparables have finished basement area unlike the subject's unfinished basement.

The Board finds the best evidence of assessment equity to be the board of review comparables as they are most similar to the subject in dwelling size, age and features. These comparables have improvement assessments ranging from \$34,371 to \$42,121 or from \$15.42 to \$18.43 per square foot of living area. The subject has an improvement assessment of \$33,595 or \$14.78 per square foot of living area, which falls below the range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported and therefore, a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
