

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Demetrios Eliadis
DOCKET NO.: 17-42579.001-R-1
PARCEL NO.: 04-20-303-049-0000

The parties of record before the Property Tax Appeal Board are Demetrios Eliadis, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,674
IMPR.: \$55,906
TOTAL: \$69,580

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,277 square feet of living area. The dwelling was approximately 33 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a three-car garage. The property has a 13,674 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on nine equity comparables located within the same neighborhood code as the subject and within .14 of a mile from the subject. The comparables consist of two-story dwellings of masonry exterior construction. The dwellings are each 33 years old and range in size from 3,450 to 3,705 square feet of living area. Each

comparable has a full unfinished basement, central air conditioning, a fireplace and a garage ranging from a two-car to a three-car. The comparables have improvement assessments ranging from \$50,535 to \$58,317 or from \$14.19 to \$15.76 per square foot of living area.

Based on this evidence, the appellant requested a reduced improvement assessment of \$50,098 or \$15.29 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$69,580. The subject property has an improvement assessment of \$55,906 or \$17.06 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, three of which are located within the same neighborhood code as the subject and on the "same block." The comparables consist of either one-story or two-story dwellings of masonry exterior construction. The dwellings range in age from 28 to 59 years old and range in size from 1,610 to 3,701 square feet of living area with a full or partial basement, one of which has a formal recreation room. Each dwelling has central air conditioning, one or two fireplaces and a two-car or a three-car garage. The comparables have improvement assessments ranging from \$30,241 to \$66,433 or from \$17.83 to \$18.78 per square foot of living area.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity concerning the improvement assessment as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of thirteen equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to board of review comparable #4 which differs from the subject in story height, age, dwelling size and other features.

The Board finds the best evidence of assessment equity to be the appellant's comparables and board of review comparables #1, #2 and #3 which have varying degrees of similarity to the subject property. These comparables have improvement assessments ranging from \$50,535 to \$66,433 or from \$14.19 to \$18.15 per square foot of living area. The subject's improvement assessment of \$55,906 or \$17.06 per square foot of living area falls within the range of the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with

clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
