

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rafael Ruiz  
DOCKET NO.: 17-42611.001-R-1  
PARCEL NO.: 19-15-312-036-0000

The parties of record before the Property Tax Appeal Board are Rafael Ruiz, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,402  
**IMPR.:** \$11,491  
**TOTAL:** \$14,893

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 1,272 square feet of living area. The dwelling is approximately 60 years old. Features of the home include a full basement with finished area, central air conditioning and a 2-car garage. The property has a 3,780 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal.<sup>1</sup> In support of this argument, the appellant submitted information on four comparable sales with the same neighborhood code

<sup>1</sup> Although the appellant also marked assessment equity as the basis of the appeal, no equity comparables were provided. The comparable sales provided by the appellant had assessments not reflective of each property's market value when comparing the assessments to their respective sales prices.

as the subject property. Each comparable has a site with 3,780 square feet of land area. The comparables are similar class 2-03 properties improved with dwellings of masonry or frame and masonry exterior construction ranging in size from 1,130 to 1,442 square feet of living area. The dwellings range in age from 60 to 102 years old. Each comparable has a full basement with two having finished area. Three comparables have central air conditioning and each comparable has a 1.5-car or a 2-car garage. The comparables sold from November 2015 to July 2017 for prices ranging from \$58,000 to \$140,000 or from \$51.33 to \$110.24 per square foot of living area, including land. Based on this evidence, the appellant requested that the subject's total assessment be reduced to \$9,687, reflecting a market value of \$96,870 or \$76.16 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$14,893. The subject's assessment reflects a market value of \$148,930 or \$117.08 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable properties with the same neighborhood code as the subject and within .25 of a mile from the subject property. Each comparable has a site with 3,780 square feet of land area. The comparables are similar class 2-03 properties improved with 1.5-story dwellings of masonry exterior construction ranging in size from 1,204 to 1,359 square feet of living area. The dwellings range in age from 60 to 66 years old. Each comparable has a full or partial basement with one having finished area. The comparables each have central air conditioning and a 2-car garage. Comparables #2 and #3 sold in October 2014 and September 2016 for prices of \$150,000 and \$245,000 or for \$124.38 and \$188.17 per square foot of living area, including land, respectively. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on six comparable sales for the Board's consideration. The Board gives less weight to the appellant's comparable sales #1 and #4 due to their older dwellings when compared to the subject dwelling. The Board gives reduced weight to board of review comparable #2 as the sale occurred in 2014 which is somewhat dated and less likely to be reflective of the subject's market value as of the January 1, 2017 assessment date. The Board finds the best evidence of market value to be the appellant's comparables #2 and #3, along with board of review comparable #3. These comparables are relatively similar to the subject in location, dwelling size, design, age and features, though two of the comparables have an

unfinished basement requiring an upward adjustment to make them more equivalent to the subject with its finished basement. The comparables sold in November 2015 and September 2016 for prices ranging from \$58,000 to \$245,000 or from \$51.33 to \$188.17 per square foot of living area, land included. The subject's assessment reflects a market value of \$148,930 or \$117.08 per square foot of living area, including land, which is within the range established by the best comparable sales in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified based on overvaluation.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
