

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kimberly Radtke
DOCKET NO.: 17-42617.001-R-1
PARCEL NO.: 19-18-413-038-0000

The parties of record before the Property Tax Appeal Board are Kimberly Radtke, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,536
IMPR.: \$13,231
TOTAL: \$17,767

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 1,260 square feet of living area. The dwelling is approximately 61 years old. Features of the home include a crawl space foundation, central air conditioning and a two-car garage. The property has a 5,040 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal.¹ In support of this argument, the appellant submitted information on four comparable sales with the same neighborhood code as

¹ Although the appellant also marked assessment equity as the basis of the appeal, no equity comparables were provided. The comparable sales provided by the appellant had assessments not reflective of each property's market value when comparing the assessments to their respective sales prices.

the subject property. The comparables have sites that range in size 3,125 to 5,081 square feet of land area. The comparables are similar class 2-03 properties improved with dwellings of masonry or frame and masonry exterior construction ranging in size from 1,060 to 1,640 square feet of living area. The dwellings range in age from 50 to 72 years old. One comparable has a concrete slab foundation and three comparables have full basements, one with finished area. Three comparables have central air conditioning and each comparable has a two-car garage. The comparables sold from March 2015 to December 2016 for prices ranging from \$97,097 to \$172,000 or from \$91.60 to \$106.10 per square foot of living area, including land. The appellant requested that the subject's total assessment be reduced to \$12,445, reflecting a market value of \$124,450 or \$98.77 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,767. The subject's assessment reflects a market value of \$177,670 or \$141.01 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales with the same neighborhood code as the subject property. The comparables have sites that range in size from 3,125 to 9,370 square feet of land area. The comparables are similar class 2-03 properties improved with one-story dwellings of frame or masonry exterior construction ranging in size from 1,012 to 1,058 square feet of living area. The dwellings range in age from 55 to 58 years old. Two comparables have full basements, one with finished area and two comparables have concrete slab foundations. One comparable has central air conditioning and two comparables each have a two-car garage. The comparables sold from April 2014 to February 2016 for prices ranging from \$171,000 to \$260,000 or from \$161.63 to \$254.90 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on eight comparable sales for the Board's consideration. The Board finds none of these comparables are truly similar to the subject due to significant differences in site size, dwelling size, age and/or features. Nevertheless, the Board gives less weight to appellant's comparables #1, #2 and #4 which differ from the subject in age, dwelling size and/or foundation. The Board gives reduced weight to board of review comparables #1 and #3 which differ from the subject in site size and/or foundation type. Additionally, board of review comparables #1 and #3 had sales occurring in April and May 2014 which are somewhat

dated and less likely to reflect the subject's market value as of the January 2017 assessment date. The Board finds the best evidence of market value to be the appellant's comparable sale #3 and board of review comparable sales #2 and #4. These comparables have varying degrees of similarity when compared to the subject. The subject is superior to the board of review comparables in that it has central air conditioning and a garage requiring upward adjustments to these comparables in order to make them more equivalent to the subject. The comparables sold from March 2015 to February 2016 for prices ranging from \$107,500 to \$260,000 or from \$92.51 to \$254.90 per square foot of living area, land included. The subject's assessment reflects a market value of \$177,670 or \$141.01 per square foot of living area, including land, which is within the range established by the best comparable sales in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified based on overvaluation.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
