

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Timothy McGuire  
DOCKET NO.: 17-42641.001-R-1  
PARCEL NO.: 25-32-203-051-0000

The parties of record before the Property Tax Appeal Board are Timothy McGuire, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$2,152  
**IMPR.:** \$6,848  
**TOTAL:** \$9,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame exterior construction with 1,102 square feet of living area. The dwelling is approximately 61 years old. The home features a concrete slab foundation. The property has a 4,305 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal.<sup>1</sup> In support of this argument, the appellant submitted information on four comparable sales with the same neighborhood code as the subject property. The comparables have sites that range in size from 3,250 to 4,366 square

<sup>1</sup> Although the appellant also marked assessment equity as the basis of the appeal, no equity comparables were provided. The comparable sales provided by the appellant had assessments not reflective of each property's market value when comparing the assessments to their respective sales prices.

feet of land area. The comparables are similar class 2-03 properties improved with dwellings of masonry or frame and masonry exterior construction ranging in size from 1,071 to 1,367 square feet of living area. The dwellings are 61 or 63 years old. One comparable has a full basement with finished area and three comparables have a crawl-space foundation or concrete slab foundation. Two comparables have central air conditioning and each comparable has a 1-car to a 2.5-car garage. The comparables sold from July 2015 to January 2017 for prices ranging from \$21,900 to \$36,800 or from \$20.45 to \$34.36 per square foot of living area, including land. Based on this evidence, the appellant requested that the subject's total assessment be reduced to \$2,860, reflecting a market value of \$28,600 or \$25.95 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$9,668. The subject's assessment reflects a market value of \$96,680 or \$87.73 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on eight comparable properties with the same neighborhood code as the subject, four of which are within the same block as the subject property.<sup>2</sup> The comparables have sites that range in size from 3,993 to 4,375 square feet of land area. The comparables are similar class 2-03 properties improved with 1-story or 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,011 to 1,355 square feet of living area. The dwellings range in age from 61 to 67 years old. Two comparables have full unfinished basements and six comparables have concrete slab foundations. Seven comparables each have a 1-car to a 3-car garage. Comparables #1 through #4 sold from July 2014 to January 2016 for prices ranging from \$94,000 to \$140,000 or from \$92.98 to \$114.77 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted information on eight comparable sales for the Board's consideration. The Board gives less weight to appellant's comparables #3 and #4, along with board of review comparables #2 and #3 which differ from the subject in dwelling size, foundation type and/or have central air conditioning, not a feature of the subject. The Board gives less weight to board of review comparable #1 as it sold in 2014 which is less proximate in time to the assessment date at issue than other comparables in the record. The Board finds the best evidence of market value

to be the appellant's comparables #1 and #2, along with board of review comparable #4. These properties are relatively similar to the subject in location, dwelling size, design and age. The comparables are superior to the subject in that each has a garage, whereas the subject has no garage, suggesting a downward adjustment would be warranted for this superior feature. The properties sold from July 2015 to January 2017 for prices ranging from \$29,000 to \$94,000 or from \$26.32 to \$92.98 per square foot of living area, including land. The subject's assessment reflects a market value of \$96,680 or \$87.73 per square foot of living area, including land, which is greater than the best comparable sales in this record in terms of overall value but within the range on a square foot basis. However, after considering adjustments to the comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
