

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Derek Wright
DOCKET NO.: 17-42802.001-R-1
PARCEL NO.: 31-27-308-032-0000

The parties of record before the Property Tax Appeal Board are Derek Wright, the appellant, by attorney Peter D. Verros of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,845
IMPR.: \$5,472
TOTAL: \$7,317

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction with 950 square feet of living area. The dwelling is approximately 46 years old. Features of the home include a concrete slab foundation and a 1-car garage. The property has a 6,710 square foot site and is located in Richton Park, Rich Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on four equity comparables located from 1.6 to 2.8 miles from the subject. The comparables were improved Class 2-02 dwellings of frame and masonry exterior construction that are 65 and 66 years old. Each comparable has a concrete-slab foundation and three comparables have either a 1.5-car or 2-car garage. The dwellings have 949 square feet of living area and have improvement assessments of \$2,645 and \$2,692 or \$2.79 and \$2.84 per square foot of living

area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$2,660 or \$2.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$7,317. The subject property has an improvement assessment of \$5,472 or \$5.76 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same block as the subject. The comparables were improved one-story dwellings of frame exterior construction that have 775 or 925 square feet of living area and are 46 years old. Three comparables lack a basement with one comparable having a full basement with a finished area, three comparables have central air conditioning, one comparable has a fireplace and two comparables have either a 1-car or 2-car garage. The comparables have improvement assessments that ranged from \$5,150 to \$6,081 or from \$6.46 to \$7.53 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables as these properties are located outside of the appellant's neighborhood and from 1.6 to 2.8 miles from the subject. The Board gave less weight to the board of review's comparable #4 as this property has a finished basement when compared to the subject's concrete-slab foundation.

The Board finds that the best evidence of assessment equity is the board of review's #1, #2, and #3 comparables. These comparables have varying degrees of similarity when compared to the subject in location, design, age, and dwelling size. These comparables have improvement assessments ranging from \$5,150 to \$6,081 or from \$6.46 to \$6.65 per square foot of living area. The subject property has an improvement assessment of \$5,472 or \$5.76 per square foot of living area, which falls below the range established by the best comparables in this record on a per square foot basis. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
