

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Ernst  
DOCKET NO.: 17-42808.001-R-1  
PARCEL NO.: 31-26-415-025-0000

The parties of record before the Property Tax Appeal Board are William Ernst, the appellant, by attorney Peter D. Verros of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$2,519  
**IMPR.:** \$3,920  
**TOTAL:** \$6,439

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 1,170 square feet of living area. The dwelling is approximately 62 years old. Features of the home include a concrete-slab foundation and a 1.5-car garage. The property has 8,398 square foot site and is located in Park Forrest, Rich Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on four equity comparables located in the same neighborhood code and within 1.4 miles from the subject. The comparables were improved Class 2-03 dwellings of frame and masonry exterior construction that are 63 or 66 years old. Each comparable has a concrete-slab foundation and either a 1-car or 2-car garage. The dwellings range in size from 1,170 to 1,424 square feet of living area and have improvement assessments ranging from \$2,867 to \$3,764 or from \$2.34 to

\$2.64 square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$2,948 or \$2.52 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$6,439. The subject property has an improvement assessment of \$3,920 or \$3.35 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same block as the subject. The comparables were improved one-story dwellings of frame and masonry exterior construction that range in size from 1,170 to 1,419 square feet of living area and are 62 years old. Each comparable has a concrete-slab foundation, three comparables have central air conditioning, two comparables have a fireplace and each comparable has a 1-car garage. The comparables have improvement assessments that ranged from \$4,331 to \$6,392 or from \$3.70 to \$4.50 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 along with the board of review's comparable #4 due to the comparables larger dwelling size when compared to the subject.

The Board finds that the best evidence of assessment equity is the appellants comparables #1, #2 and #4 along with the board of reviews comparables #1, #2, and #3. These comparables have varying degrees of similarity when compared to the subject in age, dwelling size and features. These comparables have improvement assessments that range from \$2,864 to \$4,694 or from \$2.34 to \$4.01 per square foot of living area. The subject property has an improvement assessment of \$3,920 or \$3.35 per square foot of living area, which falls within the range established by the most similar comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this evidence the Board finds no reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
