

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ron Plonis  
DOCKET NO.: 17-42840.001-R-1  
PARCEL NO.: 31-36-311-022-0000

The parties of record before the Property Tax Appeal Board are Ron Plonis, the appellant, by attorney Peter D. Verros of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$2,720  
**IMPR.:** \$2,621  
**TOTAL:** \$5,341

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame exterior construction with 953 square feet of living area. The dwelling is approximately 66 years old. Features of the home include a concrete slab foundation, a fireplace and a one-car garage. The property has a 9,068 square foot site and is located in Park Forest, Rich Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same neighborhood code as the subject property. The

comparables are improved with class 2-02 one-story<sup>1</sup> dwellings of frame exterior construction, each with 953 square feet of living area. The dwellings are either 65 or 66 years old. Each comparable has a concrete slab foundation and a one-car garage. Three comparables have one fireplace each. The comparables have improvement assessments that range from \$2,178 to \$2,621 or from \$2.29 to \$2.75 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$2,497 or \$2.62 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$6,406. The subject property has an improvement assessment of \$3,686 or \$3.87 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-02 one-story dwellings of frame exterior construction, each is 66 years old with either 949 or 953 square feet of living area. The comparables each have a concrete slab foundation, one comparable has central air conditioning, two comparables each have one fireplace and each comparable has either a 1-car, a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$4,127 to \$4,196 or from \$8.96 to \$9.12 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties provided seven suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the comparables submitted by the board of review, as comparables #1 and #2 each have considerably larger garages than the subject and comparable #3 has central air conditioning, not a feature the subject enjoys.

The Board finds the best evidence of assessment equity to be the four comparables submitted by the appellant. These comparables are identical to the subject in dwelling size, design, age and most features. They have improvement assessments ranging from \$2,178 to \$2,621 or from \$2.29 to \$2.75 per square foot of living area. The subject's improvement assessment of \$3,686 or \$3.87 per square foot of living area is above the range established by the best comparables in

the record. Based on this record, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
