

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ron Plonis
DOCKET NO.: 17-42850.001-R-1
PARCEL NO.: 32-25-107-015-0000

The parties of record before the Property Tax Appeal Board are Ron Plonis, the appellant, by attorney Peter D. Verros of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,845
IMPR.: \$5,117
TOTAL: \$6,962

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame exterior construction with 999 square feet of living area. The dwelling is approximately 57 years old. Features of the home include a partial basement with finished area and a two-car garage. The property has a 6,710 square foot site and is located in Sauk Village, Bloom Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis and photographs of the subject and four comparable properties that are located within the same neighborhood code as the subject property and from 1.2 to 2.2 miles from the subject. The comparables are improved with multi-level class 2-34 dwellings of frame or frame and masonry exterior

construction ranging in size from 900 to 1,120 square feet of living area. The dwellings are either 47 or 57 years old. Each comparable has a partial basement with finished area, one comparable has central air conditioning and two comparables have either a one-car or a two-car garage. The comparables have improvement assessments that range from \$4,118 to \$5,272 or from \$4.58 to \$4.71 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$4,645 or \$4.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$6,962. The subject property has an improvement assessment of \$5,117 or \$5.12 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted a grid analysis of the subject and four comparable properties located within the same neighborhood code and block as the subject property. The comparables are improved with multi-level class 2-34 dwellings of frame exterior construction with either 995 or 999 square feet of living area. The dwellings range in age from 43 to 57 years old. Each comparable has a partial basement with finished area and either a 1-car, a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$5,351 to \$6,685 or from \$5.36 to \$6.69 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested comparable properties to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables due to their distant locations from the subject being more than one mile away and/or they lack a garage in contrast to the subject's two-car garage. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. These four comparables are most similar to the subject in location, dwelling size, design, age and features, three of which have identical dwelling sizes as the subject dwelling. The comparables have improvement assessments that range from \$5,351 to \$6,685 or from \$5.36 to \$6.69 per square foot of living area. The subject's improvement assessment of \$5,117 or \$5.12 per square foot of living area is below the range established by the best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
