

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Fischer
DOCKET NO.: 17-42851.001-R-1
PARCEL NO.: 32-03-413-036-0000

The parties of record before the Property Tax Appeal Board are Chris Fischer, the appellant, by attorney Peter D. Verros of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,706
IMPR.: \$20,729
TOTAL: \$23,435

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 3,826 square feet of living area. The building is approximately 44 years old and features an unfinished partial basement. The property has a 9,840 square foot site and is located in Glenwood, Bloom Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis and photographs of the subject and three comparable properties that are each located in Chicago Heights approximately 6.6 miles from the subject, none of which are within the subject's neighborhood code. The comparables are improved with two-story class 2-11 multi-family buildings of masonry exterior construction, each approximately 48 years old with 3,392 square feet of living

area and an unfinished partial basement. The comparables each have an improvement assessment of \$15,434 or \$4.55 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$17,408 or \$4.55 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,435. The subject property has an improvement assessment of \$20,729 or \$5.42 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted a grid analysis and photographs of the subject and three comparable properties located within the same neighborhood code as the subject property and either on the same block or within .25 of a mile from the subject. The comparables are improved with two-story class 2-11 multi-family buildings of frame or masonry exterior construction with 1,737 or 3,826 square feet of living area. The buildings are either 44 or 73 years old. Each comparable has an unfinished partial basement and one comparable has a 2.5-car garage. The comparables have improvement assessments that range from \$9,415 to \$20,723 or \$5.41 and \$5.42 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided six suggested comparable properties to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables due to their distant locations from the subject being more than 6 miles away. The Board gives reduced weight to board of review comparable #1 due to its considerably smaller building size and it has a garage, not a feature of the subject. The Board finds the best evidence of assessment equity to be board of review comparables #2 and #3. These comparables are most similar to the subject in location, building size, design, age and features, with each building being identical to the subject dwelling in size and age. The comparables have improvement assessments of \$5.41 and \$5.42 per square foot of living area, respectively. The subject's improvement assessment of \$5.42 per square foot of living area is supported by the two best comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
