

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: GGC Ventures, LLC  
DOCKET NO.: 17-43167.001-R-1  
PARCEL NO.: 20-22-317-002-0000

The parties of record before the Property Tax Appeal Board are GGC Ventures, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C., in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,437  
**IMPR.:** \$5,063  
**TOTAL:** \$8,500

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,052 square feet of living area. The dwelling was approximately 107 years old. Features of the home include a full unfinished basement. The property has a 3,125 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant completed Section IV – Recent Sale Data of the appeal petition reporting that the subject property was purchased on February 28, 2017. The property was purchased from Patrick Hinton and the appellant reported that the parties to the transaction were not related. The property was advertised with the Multiple Listing Service (MLS). In further support, the appellant submitted copies of the MLS data sheet depicting an original asking price of \$120,000 and a listing period

of 160 days, a copy of the Settlement Statement depicting the purchase price as \$85,000 with the distribution of a commission two entities as part of the sale and a copy of the Warranty Deed transferring the property. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price at the 10% level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,913. The subject's assessment reflects a market value of \$159,130 or \$77.55 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review reported that the subject property was purchased in March 2017 for \$85,000, including land, and submitted information on three comparable sales located within the same neighborhood code and subarea of the subject. The comparables had lots ranging in size from 3,026 to 3,904 square feet of land area and were improved with either 1.5-story or 2-story class 2-11 dwellings of masonry or frame and masonry exterior construction. The comparables range in size from 1,956 to 2,572 square feet of living area and are either 112 or 117 years old. Each comparable has a full basement, one of which has a formal recreation room. Two of the comparables each have a two-car garage. The comparables sold from March to December 2017 for prices ranging from \$180,000 to \$225,000 or from \$75.82 to \$95.99 per square foot of living area, including land.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, counsel for the appellant argued that the sales presented by the board of review did not come from a verified source or reflect adjustments for differences in size, location, age, bathroom county, condition, amenities and/or date of sale. The appellant reiterated the contention that the recent sale of subject is indicative of its fair market value and further argued that the subject was actively listed on the MLS.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant submitted data concerning the 2017 purchase price of the subject property and the board of review submitted three suggested comparable sales, along with acknowledging the subject's date of purchase and sale price, in support of their respective positions before the Property Tax Appeal Board. The Board has given little weight to the board of review comparables due to differences in age, size and/or features when compared to the subject.

On this record, the Board finds the best evidence of market value to be the purchase of the subject property in February 2017 for a price of \$85,000 or \$41.42 per square foot of living area, including land. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor, the property had been advertised on the open market with the Multiple Listing Service for an asking price of \$120,000, it had been on the market for 160 days and it sold below the asking price. In further support of the transaction, the appellant submitted a copy of the Settlement Statement, the MLS listing sheet and the Warranty Deed. The Board finds the purchase price of \$85,000 is below the market value reflected by the assessment of \$159,130.

Furthermore, the Board finds the board of review did not present any substantive evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value at the time of sale. A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). Furthermore, the sale of a property during the tax year in question is a relevant factor in considering the validity of the assessment. Rosewell v. 2626 Lakeview Limited Partnership, 120 Ill.App.3d 369, 375 (1st Dist. 1983).

Based on this record, the Board finds the subject property is overvalued given its recent purchase price that was not adequately refuted and, therefore, the Board finds a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
