

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mahreen Memon
DOCKET NO.: 17-44423.001-R-1
PARCEL NO.: 10-23-126-066-0000

The parties of record before the Property Tax Appeal Board are Mahreen Memon, the appellant, by attorney George N. Reveliotis of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,039
IMPR.: \$22,766
TOTAL: \$28,805

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2017 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,488 square feet of living area. The dwelling is approximately 59 years old. Features of the home include a partial basement with finished area, central air conditioning and a two-car garage. The property has a 7,320 square foot site and is located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparable sales located within the same neighborhood code as the subject property. The comparables have sites that range in size from 3,690 to 5,388 square feet of land area. The comparables are improved with similar class 2-03 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,422 to 1,632 square

feet of living area. The dwellings range in age from 60 to 64 years old. Each comparable has a full basement, two of which have finished area. The comparables each have central air conditioning, one comparable has a fireplace and one comparable has a one-car garage. The properties sold from May 2015 to January 2017 for prices ranging from \$160,000 to \$212,500 or from \$103.23 to \$141.35 per square foot of living area, land included. Based on this evidence, the appellant requested the subject's assessment be reduced to \$18,528, reflecting a market value of \$185,280 or \$124.52 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,805. The subject's assessment reflects a market value of \$288,050 or \$193.58 per square foot of living area, including land, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales located within the same neighborhood code as the subject property, one of which is located within .25 of a mile from the subject and three are within the subject's subarea. The comparables have sites that range in size from 4,920 to 6,150 square feet of land area. The comparables are improved with similar 2-03 class, 1-story or 1.5-story dwellings of masonry or frame and masonry exterior construction ranging in size from 1,451 to 1,768 square feet of living area. The dwellings range in age from 58 to 66 years old. Each comparable has a full basement, one of which has finished area. The comparables each have central air conditioning and a two-car garage. The properties sold from March 2015 to August 2016 for prices ranging from \$265,000 to \$361,000 or from \$179.66 to \$204.19 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested comparable sales for the Board's consideration. The Board gives less weight to the appellant's comparables #2, #3 and #4 as none of these comparables have a garage like the subject, which has a two-car garage. The Board gives reduced weight to board of review comparable #1 due to its dissimilar 1.5-story design and larger dwelling size when compared to the subject.

The Board finds the best evidence of market value to be appellant's comparable #1, along with board of review comparables #2, #3 and #4. These comparables are relatively similar to the subject in location, dwelling size, design and age, although each of the comparables have a

smaller site size and lack a finished basement when compared to the subject, suggesting upward adjustments would be required for these superior features to make the comparables more equivalent to the subject. The comparables sold from March 2015 to August 2016 for prices ranging from \$212,500 to \$291,000 or from \$130.93 to \$199.18 per square foot of living area, including land. The subject's assessment reflects a market value of \$288,050 or \$193.58 per square foot of living area, including land, which is within the range established by best comparable sales in this record and appears to be well supported given its superior site size and finished basement. After considering necessary adjustments to the comparables for differences when compared to the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
