

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Ellis  
DOCKET NO.: 18-00459.001-R-1  
PARCEL NO.: 07-02-207-010

The parties of record before the Property Tax Appeal Board are Richard Ellis, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$30,812  
**IMPR.:** \$88,703  
**TOTAL:** \$119,515

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,659 square feet of living area. The dwelling was constructed in 2006. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 682 square foot garage. The property has a 10,048 square foot site and is located in Waukegan, Warren Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on six comparable sales located within 0.16 of a mile from the subject property. The comparables have sites that range in size from 8,073 to 12,230 square feet of land area and are improved with two-story dwellings of wood siding exterior construction that range in size from 3,389 to 3,558 square feet of living area. The homes were built from 2005 to 2008. Each comparable has a basement, one with finished area, central air conditioning, one

fireplace and a garage ranging in size from 638 to 682 square feet of building area. The comparables sold from February 2017 to January 2018 for prices ranging from \$300,000 to \$335,000 or from \$84.79 to \$98.21 per square foot of living area, land included. Based on this analysis the appellant requests the subject's assessment be reduced to \$110,979.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$119,515. The subject's assessment reflects a market value of \$361,291 or \$98.74 per square foot of living area, land included, when using the 2018 three year average median level of assessment for Lake County of 33.08% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales located within 0.16 of a mile from the subject property. Board of review comparables #1, #2 and #4 are the same sales as the appellant's comparables #4, #5 and #2, respectively. The comparables have sites that range in size from 10,083 to 12,230 square feet of land area and are improved with two-story dwellings of wood siding exterior construction that range in size from 3,044 to 3,558 square feet of living area. The homes were built in 2005 or 2007. Each comparable has a basement, one with finished area, central air conditioning, one fireplace and a garage ranging in size from 628 to 682 square feet of building area. The comparables sold from August 2017 to April 2018 for prices ranging from \$319,900 to \$335,000 or from \$90.64 to \$105.09 per square foot of living area, land included.

The board of review also submitted a location map depicting the subject and comparables for both parties. The board of review asserted that the subject benefits from its location backing up to a golf course and that appellant's comparables #1, #3, #4 and #6 are situated on non-golf course sites. The remaining comparables are identified to have a similar golf course influence as the subject. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven comparables for the Board's consideration, as three comparables were common to both parties. The Board gave less weight to appellant comparables #1, #3 and #6 which lack a golf course influence which the subject site benefits from. The Board also gave less weight to the common appellant comparable #4/board of review #1 which has a finished basement compared to the subject's unfinished basement, in addition to lacking a site with a golf course influence.

The Board finds the best evidence of market value to be the board of review comparable #3, common appellant comparable #2/board of review #4 and common appellant comparable

#5/board of review #2 which are more similar to the subject in location, age, site and features. Each of these three comparables has a smaller dwelling size compared to the subject. These most similar comparables sold from August 2017 to April 2018 for prices ranging from \$319,900 to \$335,000 or from \$90.64 to \$105.09 per square foot of living area, including land. The subject's assessment reflects a market value of \$361,291 or \$98.74 per square foot of living area, including land, which falls above the overall value range and within the price per square foot range established by the best comparable sales in this record. The subject's higher overall value reflects its larger dwelling size relative to the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
