

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Tucker
DOCKET NO.: 18-00502.001-R-1
PARCEL NO.: 12-21-117-020

The parties of record before the Property Tax Appeal Board are Robert Tucker, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$82,730
IMPR.: \$136,697
TOTAL: \$219,427

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of wood siding exterior construction with 2,028 square feet of living area. The dwelling was constructed in 1910. Features of the property include an unfinished basement, central air conditioning, two fireplaces and a detached two-car garage with 572 square feet of building area. The property is located in Lake Bluff, Shields Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with two-story dwellings with wood siding exteriors that range in size from 1,789 to 2,192 square feet of living area. The dwellings were built from 1895 to 1905. Each property has a basement with one having finished area, central air conditioning, and an attached or detached garage ranging in size from 260 to 528 square feet of building area. One

comparable has a fireplace. Each property has the same assessment neighborhood code as the subject property. These properties have improvement assessments ranging from \$88,751 to \$119,128 or from \$49.61 to \$55.90 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$108,065.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$219,427. The subject property has an improvement assessment of \$136,697 or \$67.40 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables improved with two-story dwellings with wood siding exteriors that range in size from 1,920 to 2,073 square feet of living area. The homes were built from 1900 to 1924. Each comparable has a basement with two having finished area, central air conditioning, and one fireplace. Two comparables have detached garages with 400 and 396 square feet of building area, respectively. Each property has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$136,121 to \$141,562 or from \$65.82 to \$72.16 per square foot of living area. The board of review requested the assessment be sustained.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record does not support a reduction to the subject's assessment.

The Board finds the record contains six comparables submitted by the parties that are relatively similar to the subject property in location, age, style, size and features. These properties have improvement assessments ranging from \$88,751 to \$141,562 or from \$49.61 to \$72.16 per square foot of living area. The subject's improvement assessment of \$136,697 or \$67.40 per square foot of living area falls within the range established by the comparables in this record.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence in this record.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
