

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Don Mobley
DOCKET NO.: 18-00642.001-R-1
PARCEL NO.: 06-27-204-017

The parties of record before the Property Tax Appeal Board are Don Mobley, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,448
IMPR.: \$67,442
TOTAL: \$91,890

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of vinyl siding exterior construction with 2,042 square feet of living area. The dwelling was constructed in 1992. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 441 square foot garage. The property has a 14,375 square foot site and is located in Grayslake, Avon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on four comparable sales located within .33 of a mile of the subject. The comparables were described as two-story dwellings of vinyl siding exterior construction that were built in 1993 or 1994. The dwellings range in size from 1,778 to 2,484 square feet of living area. The comparables each feature a basement with one having finished area. In addition, the comparables have central air conditioning, two comparables each have a

fireplace and each comparable has a garage ranging in size from 441 to 780 square feet of building area. The comparables have sites ranging in size from 10,400 to 21,270 square feet of land area. The appellant also submitted a Multiple Listing Service Sheet associated with the sale of comparable #1. The comparables sold from June 2017 to February 2018 for prices ranging from \$227,500 to \$295,000 or from \$103.42 to \$142.64 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$94,760. The subject's assessment reflects a market value of \$286,457 or \$140.28 per square foot of living area, land included, when using the 2018 three-year average median level of assessment for Lake County of 33.08% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted a grid analysis and property record cards on seven comparable sales located within .508 of a mile of the subject, with one comparable submitted twice.¹ The comparables were described as two-story dwellings of vinyl siding exterior construction ranging in size from 2,042 to 2,330 square feet of living area. The dwellings were built from 1987 to 1994. The comparables each feature a basement with three having finished area. In addition, each comparable has central air conditioning, a fireplace and a garage ranging in size from 420 to 1,682 square feet of building area. The comparables have sites ranging in size from 7,946 to 23,087 square feet of land area. The comparables sold from July 2016 to June 2018 for prices ranging from \$272,500 to \$322,000 or from \$126.03 to \$148.14 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds ten comparables were submitted by the parties in support of their respective positions. The Board gave less weight to the appellant's comparable #1 and board of review comparables #1, #3 and #7 as they have basements with finished area unlike the subject's unfinished basement. Reduced weight was given to the appellant's comparable #4 and board of review comparable #4 as they have larger lot sizes and garage sizes when compared to the subject. The Board gave less weight to the board of review comparable #5 as it sold in July 2016 which is less proximate in time and less likely to be reflective of the subject's market value as of the January 1, 2018 assessment date.

The Board finds the best evidence of market value to be the appellant's comparables #2 and #3 along with board of review comparable #2. These comparables are similar to the subject in

¹ Board of review comparables #4 and #6 are the same property.

location, design, age and features. However, each comparable has a slightly smaller lot size, one comparable has a larger dwelling size and one comparable has a smaller dwelling size. The comparables sold from December 2016 to February 2018 for prices ranging from \$227,500 to \$295,000 or from \$124.05 to \$127.95 per square foot of living area, including land. The subject's assessment reflects a market value of \$286,457 or \$140.28 per square foot of living area, including land, which falls above the range established the best comparable sales in this record on a price per square foot basis. After considering adjustments to the comparables for differences including dwelling size and/or lot size when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is excessive. Based on this evidence, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
