

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lois Mance
DOCKET NO.: 18-01432.001-R-1
PARCEL NO.: 11-04-32-309-029-0000

The parties of record before the Property Tax Appeal Board are Lois Mance, the appellant; and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Will County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,818
IMPR.: \$36,724
TOTAL: \$44,542

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story townhome of frame and masonry exterior construction with 1,378 square feet of living area. The dwelling was constructed in 1999. Features of the home include a crawl space foundation, central air conditioning, two bathrooms and a 240 square foot garage. The property is located in Crest Hill, Lockport Township, Will County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within a half block of the subject. The comparables are described as one-story townhomes of frame and masonry exterior construction ranging in size from 1,177 to 1,352 square feet of living area. The dwellings were reported to be 20 years old and feature central air conditioning, two bathrooms and garages ranging in size from 220 to 308 square feet of building area. The comparables were reported to have improvement assessments ranging from \$29,444 to

\$32,702 or from \$24.00 to \$25.02 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,542. The subject property has an improvement assessment of \$36,724 or \$26.65 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted a grid analysis and property records for the subject and the appellant's comparables. The board of review argued the appellant's grid analysis reported incorrect improvement assessments for the subject and comparables. The revised grid analysis indicated the corrected improvement assessments of the comparables range from \$32,438 to \$36,027 or from \$26.59 to \$27.56 per square foot of living area; the properties were built from 1997 to 2001 or 17 to 21 years old; comparables #3 and #4 have only one bath; and comparable #4 has a concrete slab foundation. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted the same four equity comparables for the Board's consideration. Although each comparable has a smaller dwelling size and two have one less bath when compared to the subject, these comparables are similar to the subject in location, design, age and most features. They have improvement assessments ranging from \$32,438 to \$36,027 or from \$26.59 to \$27.56 per square foot of living area. The subject has an improvement assessment of \$36,724 or \$26.65 per square foot of living area, which falls within the range on a per square foot basis established by the comparables in the record but slightly above on an overall basis due to the subject's larger dwelling size. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
