

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dragan Kovacevic
DOCKET NO.: 18-01618.001-R-1
PARCEL NO.: 16-07-103-005

The parties of record before the Property Tax Appeal Board are Dragan Kovacevic, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$96,984
IMPR.: \$279,179
TOTAL: \$376,163

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 4,600 square feet of living area. The dwelling was constructed in 1998 and is approximately 19 years old. Features of the home include an unfinished full basement, central air conditioning, a fireplace and a 3-car attached garage with 804 square feet of building area. The property has a site with approximately 28,749 square feet of land area and is located in Lake Forest, West Deerfield Township, Lake County.¹

¹ The parties differ as to the subject's site size and garage size. The Board finds the best evidence of the subject's size is the property record card provided by the board of review which contains a schematic and calculations along with the site dimensions. The appellant's appraiser did not provide a schematic drawing as part of the appraisal report.

The appellant contend overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal prepared by William P. Neberieza, a Certified General Real Estate Appraiser. The appraisal was prepared for a real estate tax appeal and estimated the subject property had a market value of \$1,050,000 as of January 1, 2017. The appraiser developed the sales comparison approach to value using three comparable sales located within 1.02 miles from the subject. The comparables have sites ranging in size from 19,398 to 64,468 square feet of land area and are improved with two-story dwellings that range in size from 4,540 to 5,954 square feet of living area. The properties range in age from 26 to 32 years of age. Each of the comparables has a basement, one with finished area, central air conditioning, two to four fireplaces and a 3-car garage. The comparables sold from September 2015 to January 2017 for prices ranging from \$1,050,000 to \$1,200,000 or from \$201.55 to \$231.28 per square foot of living area, land included. The appraiser adjusted the comparables for location, site size, dwelling size and differing features to arrive at adjusted prices ranging from \$1,009,500 to \$1,050,700. As a result, the appraiser arrived at an estimated value for the subject of \$1,050,000, including land, as of January 1, 2017. Based on this evidence, the appellants' requested the subject's assessment be reduced to \$349,965 or a market value of \$1,050,000 when using the statutory level of assessments of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$376,163. The subject's assessment reflects a market value of \$1,137,131 or \$247.20 per square foot of living area, land included, when using the 2018 three year average median level of assessment for Lake County of 33.08% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales located within approximately 0.98 of a mile from the subject property. The comparables have sites that range in size from 29,185 to 44,431 square feet of land area and are improved with two-story dwellings of brick and wood siding exterior construction that range in size from 4,320 to 4,636 square feet of living area. The homes were built from 1995 to 2003. Each comparable has a basement, three with finished area, central air conditioning, two or three fireplaces and a garage ranging in size from 763 to 864 per square foot of building area. The comparables sold from June 2016 to June 2017 for prices ranging from \$1,150,000 to \$1,420,000 or from \$254.53 to \$320.11 per square foot of living area, land included.

The board of review included comments in the comparable sales grid that notes the appellant's appraisal has an effective date of January 1, 2017, while the subject's assessment under appeal is as of January 1, 2018. The board of review also noted that two of the appraisal comparables sold well before the assessment date at issue in September 2015 and May 2016. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or

construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted an appraisal and four comparable sales to support their respective positions. The Board finds that the effective date of the appraisal is 12 months prior to the January 1, 2018 assessment date at issue and that two of the appraisal comparables have sales dates in 2015 and 2016 are dated and less likely to be reflective of the subject's market value as of the January 1, 2018 assessment date. For these reasons, the Board gives little weight to the appraiser's conclusion of value for the subject property.

The Board gives less weight to the board of review comparables #2 and #3 which have sale dates in 2016 which are dated and less indicative of the subject's market value as of the January 1, 2018 assessment date. The Board finds the best evidence of market value to be the board of review comparable sales #1 and #4 which are more similar in dwelling, basement and garage size when compared to the subject. Comparable #4 has an unfinished basement and is considered to be the most similar to the subject and sold for \$1,180,000 or \$254.53 per square foot, land included. The two best comparables sold for \$1,150,000 and \$1,180,000 or from \$254.53 and \$255.90 per square foot of living area, including land. The subject's assessment reflects a market value of \$1,137,131 or \$247.20 per square foot of living area, including land, which is below the range established by the best comparable sales in the record and considered justified given the subject's unfinished basement. After considering adjustments to the comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
