

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jones Lease Properties, LLC
DOCKET NO.: 18-04063.001-R-1
PARCEL NO.: 16-26-106-008

The parties of record before the Property Tax Appeal Board are Jones Lease Properties, LLC, the appellant, by attorney R. Nick Mason of Mason & Scott, P.C. in Moline; and the Rock Island County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Rock Island** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,324
IMPR.: \$27,220
TOTAL: \$32,544

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Rock Island County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame and brick construction with 1,008 square feet of living area.¹ The dwelling was constructed in 1965. Features of the home include a full unfinished basement and central air conditioning. The property has a 7,500 square foot site and is located in Rock Island, Blackhawk Township, Rock Island County.

The appellant contends overvaluation as the basis of the appeal based upon the recent purchase price of the subject property and sales of comparable properties.

¹The Board finds the best evidence of the description of the subject is found in the property record card provided by the board of review depicting the exterior construction of the subject dwelling with frame and brick and the lot dimensions as 60' x 125' or 7,500 square feet of land area.

As to the purchase price, the appellant completed Section IV – Recent Sale Data reporting the subject property was purchased on July 18, 2017 for a price of \$68,000 or \$67.46 per square foot of living area, including land. The property was purchased from Kondaur Capital Corporation as Separate Trustee of Metawin Ventures Trust Series 2015-3, the parties to the transaction were not related, the property sold through a realtor after being advertised on the open market with the multiple-listing service (MLS) for a period of 68 days. Copies of the Real Estate Purchase Agreement and Settlement Statement were submitted reiterating the purchase price and that broker's commissions were distributed to two entities. In Section IV, the appellant further reported that after expenditure of \$12,500 for renovations, the property was occupied on December 1, 2018 which indicates a total investment for the subject property of \$80,500.

The appellant also submitted a grid analysis and photographs on three comparable sales located in either Moline or Rock Island and from 4.5 to 10.2 miles from the subject property. The comparables range in size from 6,337 to 18,060 square feet of land area. The comparables are improved with a one-story dwelling and two, one and one-half-story dwellings of frame exterior construction ranging in size from 860 to 1,344 square feet of living area. The dwellings were built from 1920 to 1948. Two comparables each have a full unfinished basement. Each comparable has central air conditioning and a one-car or a two-car garage. The comparables sold in July 2017 or June 2018 for prices of \$67,000 and \$68,000 or from \$50.60 to \$77.91 per square foot of living area, including land.

Based on this evidence, the appellant requested that the subject's assessment be reduced to \$22,664 which would approximately reflect the July 2017 purchase price of \$68,000 at the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,544. The subject's assessment reflects a market value of \$97,612 or \$96.84 per square foot of living area, land included, when using the 2018 three-year average median level of assessment for Rock Island County of 33.34% as determined by the Illinois Department of Revenue.

In response to the appeal, the board of review argued that the appellant's comparables are outside of the subject's subdivision, in another township and in another city. Furthermore, the board of review argued that appellant's comparables #1 and #3 are not the same story height as the subject. The board of review asserted that the appellant's comparison grid does not show properties that are comparable to the subject in condition or location. The board of review contends the appellant's grid should not be used to determine the subject's market value.

In support of its contention of the correct assessment, the board of review submitted information and photographs of eight comparable properties located in Rock Island and from .06 to .24 of a mile from the subject property. The comparables have sites that range in size from approximately 6,000 to 15,618 square feet of land area. The comparables are improved with one-story dwellings of frame, aluminum, vinyl, or brick and vinyl siding exterior construction ranging in size from 924 to 1,008 square feet of living area. The dwellings were built from 1964 to 1972. Each comparable has a basement with six having finished area and central air conditioning. One comparable has a fireplace and seven comparables each have either one or two garages that range in size from 288 to 682 square feet of building area. The comparables

sold from April 2015 to July 2017 for prices ranging from \$96,000 to \$120,000 or from \$102.18 to \$119.05 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the evidence in the record does not support a reduction in the subject's assessment.

The appellant provided evidence that the subject property was purchased in July 2017 for a price of \$75,000. The record indicated the property was advertised for sale for 68 days. In addition, the appellant reported that renovations were made to the property in the sum of \$12,500 before the property was occupied on December 1, 2018. The Board gives little weight to the subject's sale price as the condition of the property changed after its sale due to renovations. Thus, the sale price in July 2017 does not reflect its condition as of the January 1, 2018 assessment date.

The appellant and the board of review submitted information on a total of eleven comparable sales to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables which differ from the subject in location, site size, dwelling size, design, age and/or foundation. The Board has given reduced weight to board of review comparables #2, #4, #5, #6, #7 and #8 as their sales occurred in 2015 and 2016 which are dated and less likely to be indicative of the subject's market value as of the January 1, 2018 assessment.

Based on this record, the Board finds the best comparable sales are board of review comparables #1 and #3. These properties are relatively similar to the subject in location, dwelling size, design and age, though each comparable has a garage and comparable #1 has a finished basement which are not features of the subject. The properties both sold in July 2017 for prices of \$115,000 and \$120,000 or for \$118.31 and \$119.05 per square foot of living area, including land, respectively. The subject's assessment reflects a market value of \$97,612 or \$96.84 per square foot of living area, including land, which is below the best comparable sales in the record both in terms of overall value and on a square foot basis but appears to be justified given its lack of a garage. After considering adjustments to the comparables for differences from the subject, the Board finds the subject is not overvalued and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
