

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Nicholus  
DOCKET NO.: 18-20435.001-R-1  
PARCEL NO.: 09-35-116-004-0000

The parties of record before the Property Tax Appeal Board are Richard Nicholus, the appellant, by Amy C. Floyd, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,580  
**IMPR.:** \$26,298  
**TOTAL:** \$31,878

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame exterior construction with 2,057 square feet of living area. The dwelling is approximately 96 years old. Features of the home include a full basement with a recreation and central air conditioning. The property has a 6,200 square foot site and is located in Park Ridge, Maine Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject property. The comparables are improved with class 2-04, 1.5 to 1.9-story dwellings of frame or frame and masonry exterior construction ranging in size from 2,202 to 2,465 square feet of living area. The dwellings range in age from 89 to 103 years old. Each comparable has a full or partial basement

that is unfinished. Two comparables have central air conditioning and three comparables each have one fireplace. The comparables have improvement assessments that range from \$21,683 to \$26,150 or from \$9.29 to \$10.87 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$20,261 or \$9.85 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,878. The subject property has an improvement assessment of \$26,298 or \$12.78 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject property. The comparables are improved with class 2-04, one-story or 1.5-story dwellings of frame exterior construction ranging in size from 1,865 to 2,098 square feet of living area. The dwellings range in age from 67 to 97 years old. Each comparable has a full or partial basement, one of which has a recreation room. Two comparables have central air conditioning, one comparable has a fireplace and each comparable has a 2-car garage. The comparables have improvement assessments that range from \$25,953 to \$34,946 or from \$13.71 to \$17.83 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board finds none of the comparables are truly similar to the subject in dwelling size, design, age and/or features. The appellant's comparables differ from the subject in that each dwelling is a 1.5 to 1.9-story design when compared to the subject dwelling's one-story design and each lack a basement recreation room, whereas the board of review comparables each have a garage unlike the subject and three of the comparables lack a basement recreation room. Furthermore, board of review comparable #2 is newer in age than the subject dwelling and board of review comparables #3 and #4 are dissimilar 1.5-story designs in contrast to the subject's one-story design. Nevertheless, the Board gives less weight to appellant's comparables #1 and #4 due to their larger dwelling sizes, when compared to the subject. The Board gives reduced weight to board of review comparable #2 due to its newer age when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #3, along with board of review comparables #1, #3 and #4. These comparables are relatively similar

to the subject in dwelling size and age but have varying degrees of similarity to the subject in design and features. The comparables have improvement assessments that range from \$21,683 to \$32,555 or from \$9.84 to \$17.46 per square foot of living area. The subject's improvement assessment of \$26,298 or \$12.78 per square foot of living area is within the range established by the best comparables in the record both in terms of overall improvement assessment and on a square foot basis. After considering adjustments to the comparables for differences from the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
