

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Martin
DOCKET NO.: 18-20462.001-R-1
PARCEL NO.: 23-26-308-008-0000

The parties of record before the Property Tax Appeal Board are Ronald Martin, the appellant, by attorney Scott L. David, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,490
IMPR.: \$43,122
TOTAL: \$55,612

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of frame and masonry construction with 4,189 square feet of living area. The dwelling is approximately 50 years old. Features of the home include an unfinished partial basement, central air conditioning, a fireplace and a 2-car garage. The property has a 41,635 square foot site and is located in Palos Park, Palos Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal.¹ In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are 1-story or 1.5-story, class 2-04, dwellings of frame and masonry construction

¹ The appellant's appeal was marked as if overvaluation based on a recent appraisal was being challenged, however, the appellant submitted evidence of improvement assessment inequity based on comparable assessment data.

that range in size from 3,563 to 5,796 square feet of living area. The homes range in age from 30 to 78 years old. Three comparables have unfinished full or partial basements and one comparable has a crawl-space foundation. Each comparable has central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$30,474 to \$53,327 or from \$8.55 to \$9.58 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$50,072.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,612. The subject property has an improvement assessment of \$43,122 or \$10.29 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject. Comparable #1 is also located on the same block as the subject. The comparables are 1-story or 1.5-story, class 2-04, dwellings of masonry or frame and masonry construction that range in size from 4,026 to 4,879 square feet of living area. The homes are either 19 or 47 years old. Two comparables have full basements, one of which has finished area, and one comparable has a crawl-space foundation. Other features include central air conditioning, two or four fireplaces and garages ranging in size from a 2-car to a 3-car. The comparables have improvement assessments ranging from \$46,901 to \$54,937 or from \$10.89 to \$12.89 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board finds none of the comparables are particularly similar to the subject. The parties' comparables are similar to the subject in location, building classification and some features. The comparables have improvement assessments ranging from \$30,474 to \$54,937 or from \$8.55 to \$12.89 per square foot of living area. The subject's improvement assessment of \$43,122 or \$10.29 per square foot of living area falls within the range established by the parties' comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
