

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan Kanter
DOCKET NO.: 18-20547.001-R-1
PARCEL NO.: 05-34-400-005-0000

The parties of record before the Property Tax Appeal Board are Jonathan Kanter, the appellant, by attorney Ciarra Schmidt of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,707
IMPR.: \$55,653
TOTAL: \$68,360

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,403 square feet of living area. The dwelling is approximately 95 years old. Features of the home include a full unfinished basement, central air conditioning, and one fireplace. The property has a 7,475 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables improved with two-story class 2-06 dwellings of frame or stucco exterior construction ranging in size from 2,488 to 2,895 square feet of living area. The dwellings range in age from 99 to 118 years old. Each comparable has a full or partial basement with two having

recreation rooms, three comparables have central air conditioning, each comparable has one fireplace, and four comparables have a 1-car or a 2-car detached garage. Each property has the same assessment neighborhood code as the subject property. The improvement assessments range from \$48,093 to \$59,127 or from \$19.33 to \$21.33 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$49,621.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$68,360. The subject property has an improvement assessment of \$55,653 or \$23.16 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story class 2-06 dwellings of frame exterior construction ranging in size from 2,245 to 2,830 square feet of living area. The homes range in age from 97 to 112 years old. Each property has a full basement with one having finished area, one or two fireplaces, and a two-car garage. Three comparables have central air conditioning. Each property has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$63,850 to \$81,681 or from \$27.67 to \$29.29 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine comparables to support their respective positions. The Board gives less weight to appellant's comparables #1 and #3 as well as board of review comparable #2 due to the lack of central air conditioning. The Board gives less weight to appellant's comparable #2 and board of review comparable #4 due to their larger dwelling sizes in relation to the subject home. The Board gives most weight to appellant's comparables #4 and #5 as well as board of review comparables #1 and #3. These comparables are superior to the subject with finished basement area and/or garages, neither of which the subject has. Nevertheless, these comparables have improvement assessments that range from \$58,437 to \$78,263 or from \$21.25 to \$29.29 per square foot of living area. The subject's improvement assessment of \$55,653 or \$23.16 per square foot of living area falls below the overall range but within the range on a square foot basis as established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
