

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mohammed Sakaria
DOCKET NO.: 18-20583.001-R-1
PARCEL NO.: 09-13-109-005-0000

The parties of record before the Property Tax Appeal Board are Mohammed Sakaria, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,265
IMPR.: \$27,545
TOTAL: \$32,810

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,784 square feet of living area. The dwelling is approximately 55 years old. Features of the home include a partial basement with a formal recreation room, central air conditioning, and a two-car garage. The property has a 7,800 square foot site and is located in Morton Grove, Maine Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-34, multi-level dwellings of frame or frame and masonry exterior construction that range in size from 1,696 to 1,963 square feet of living area and range in age

from 48 to 52 years old. The comparables have partial basements with formal recreation rooms, central air conditioning and two-car garages. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$17,456 to \$23,775 or from \$10.26 to \$12.15 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$21,604 or \$12.11 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,810. The subject has an improvement assessment of \$27,545 or \$15.44 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with multi-level, class 2-34 dwellings of masonry exterior construction ranging in size from 1,685 to 1,719 square feet of living area and ranging in age from 50 to 56 years old. The comparables have partial basements with formal recreation rooms, central air conditioning, and two-car garages. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$29,104 to \$31,125 or from \$17.00 to \$18.35 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine equity comparables for the Board's consideration that are relatively similar to the subject in location, age, dwelling size and most features. These comparables have improvement assessments ranging from \$17,456 to \$31,125 or from \$10.26 to \$18.35 per square foot of living area. The subject has an improvement assessment of \$27,545 or \$15.44 per square foot of living area, which is within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement assessment was inequitably assessed and a reduction in the subject's assessment was not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
