

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jason Hanold  
DOCKET NO.: 18-20592.001-R-1  
PARCEL NO.: 05-28-206-008-0000

The parties of record before the Property Tax Appeal Board are Jason Hanold, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$62,700  
**IMPR.:** \$208,125  
**TOTAL:** \$270,825

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 5,824 square feet of living area. The dwelling is approximately 112 years old. Features of the home include an unfinished basement, central air conditioning and two fireplaces. The property has a 33,000 square foot site and is located in Kenilworth, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-09 dwellings of masonry, stucco or frame and masonry exterior construction that range in size from 5,737 to 6,012 square feet of living area.

The homes range in age from 87 to 108 years old. Each comparable has a basement, two with finished area, one to three fireplaces and from a 1.5-car to a 3-car garage. Two properties have central air conditioning. The comparables have improvement assessments ranging from \$163,894 to \$171,597 or from \$27.40 to \$28.70 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$208,125 or \$35.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$276,241. The subject property has an improvement assessment of \$213,541 or \$36.67 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-09 dwellings of masonry or frame and masonry exterior construction that range in size from 5,118 to 8,356 square feet of living area. The homes range in age from 4 to 120 years old. Each comparable has a basement, two with finished area, central air conditioning, two to five fireplaces and a 3-car or a 4-car garage. The comparables have improvement assessments that range from \$189,622 to \$304,821 or from \$36.18 to \$45.68 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gave less weight to the board of review comparables which differ substantially from the subject in age and/or dwelling size.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are more similar to the subject in location, age, design and dwelling size but where each has a garage, a feature lacking in the subject property. These comparables had improvement assessments that ranged from \$163,894 to \$171,597 or from \$27.40 to \$28.70 per square foot of living area. The subject's improvement assessment of \$213,541 or \$36.67 per square foot of living area falls above the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment, commensurate with the request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
