

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 1904 North Avenue, LLC
DOCKET NO.: 18-20594.001-R-1
PARCEL NO.: 16-28-217-029-0000

The parties of record before the Property Tax Appeal Board are 1904 North Avenue, LLC, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,998
IMPR.: \$8,360
TOTAL: \$11,358

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of masonry exterior construction with 1,760 square feet of building area. The dwelling is approximately 104 years old. Features of the property include a basement with finished area and a 2-car garage. The property has a 3,528 square foot site and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables, four of which are located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-11 multi-family buildings of frame exterior construction that range in size from 1,750 to 2,248 square feet of building area.

The homes range in age from 104 to 129 years old. Two comparables have a basement, one with finished area and three of the properties have no basement. Three of the properties feature a 2-car garage. The comparables have improvement assessments ranging from \$5,902 to \$7,637 or from \$3.37 to \$3.45 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$5,948 or \$3.38 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$11,358. The subject property has an improvement assessment of \$8,360 or \$4.75 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-11 multi-family buildings of masonry exterior construction that have either 1,894 or 2,112 square feet of building area. The properties are each 104 years old. Each comparable has a basement, three with finished area and a 2-car garage. One property has central air conditioning. The comparables have improvement assessments that range from \$12,004 to \$13,532 or from \$5.89 to \$6.41 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds this burden of proof was not met and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 through #4 which lack basements, a garage and/or differ from the subject in location.

The Board finds the best evidence of assessment equity to be the remaining comparables which are similar to the subject in location, age, design, building size and most features. These comparables had improvement assessments that ranged from \$7,637 to \$13,532 or from \$3.45 to \$6.41 per square foot of building area. The subject's improvement assessment of \$8,360 or \$4.75 per square foot of building area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
