

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Monil Shah
DOCKET NO.: 18-20595.001-R-1
PARCEL NO.: 16-28-100-001-0000

The parties of record before the Property Tax Appeal Board are Monil Shah, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,090
IMPR.: \$28,534
TOTAL: \$31,624

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story mixed-use building of masonry exterior construction with 6,876 square feet of building area. The building is approximately 105 years old. Features of the property include an unfinished basement and central air conditioning. The property has a 3,636 square foot site and is located in Cicero, Cicero Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables, three of which are located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-12 buildings of masonry or frame and masonry exterior construction that range in size from 5,712 to 10,920 square feet of

building area. The buildings range in age from 63 to 104 years old. Two of the properties have basements, one with a finished apartment and three comparables have no basement or a slab foundation. Four of the properties have either a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$16,800 to \$32,309 or from \$2.48 to \$3.47 per square foot of building area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$20,215 or \$2.94 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,624. The subject property has an improvement assessment of \$28,534 or \$4.15 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with two-story class 2-12 mixed-use buildings of masonry exterior construction that range in size from 2,404 to 5,731 square feet of building area. The properties range in age from 101 to 111 years old. Each comparable has an unfinished basement, two properties have central air conditioning and one comparable has a 2.5-car garage. The comparables have improvement assessments that range from \$13,975 to \$24,385 or from \$4.25 to \$5.81 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #2 and #3 along with board of review comparable #2 which differ from the subject in location and/or building area.

The Board finds the best evidence of assessment equity to be the remaining comparables which are relatively similar to the subject in location, age, design and some features. These comparables had improvement assessments that ranged from \$19,548 to \$32,309 or from \$3.14 to \$4.58 per square foot of building area. The subject's improvement assessment of \$28,534 or \$4.15 per square foot of building area falls within the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
