

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Milan Culafic
DOCKET NO.: 18-20792.001-R-1
PARCEL NO.: 15-26-125-035-0000

The parties of record before the Property Tax Appeal Board are Milan Culafic, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,000
IMPR.: \$27,377
TOTAL: \$32,377

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a twelve-year-old, two-story building of masonry construction containing 2,992 square feet of gross building area. Features of the subject include a full unfinished basement, central air conditioning, one fireplace and a two-car garage. The property is situated on 6,250 square feet of land in Riverside, Riverside Township, Cook County. It is a Class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and overvaluation as the bases of the appeal. In support of the assessment inequity argument, the appellant submitted information on one suggested equity comparable property. This property contained 2,994 square feet of gross building area, or \$7.68 per square feet. In support of the overvaluation argument, the appellant

submitted information on two suggested comparable sales.¹ These properties sold from September 2014 through June 2015. They ranged from 2,576 to 2,720 square feet of gross building area including land, or from \$49.63 to \$76.09 per square foot. The appellant requested a reduction of assessment to \$27,800.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,377. The subject property has an improvement assessment of \$27,377, or \$9.15 per square foot of living area. The subject's assessment reflects a market value of \$323,770, or \$108.21 per square foot of living area including land, when applying the 2018 level of assessment of 10.00% for Class 2 property under the Cook County Real Property Assessment Classification Ordinance. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparable properties and on four suggested sale comparable properties. The equity properties ranged from 2,404 to 3,227 square feet of gross building area, or from \$10.50 to \$12.31 per square foot. The sale properties sold from September 2016 through December 2017. They ranged from 2,680 to 3,760 square feet of gross building area including land, or from \$134.31 to \$312.50 per square foot.

In rebuttal, the appellant argued that the comparable properties submitted as evidence by the board of review should be given diminished weight because they were dissimilar to the subject in various key property characteristics. The appellant reaffirmed the request for an assessment reduction.

At hearing, the appellant argued his one equity property was most similar with the subject. He testified that the two suggested sale properties were similar with the subject. The board of review representative argued that the appellant's two sale properties were sold in a prior general assessment period from the current lien year and, therefore, should not be considered relevant evidence.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparable(s) #1, and the board of review's comparable(s) #3 and #4. These comparables had improvement assessments that ranged from \$7.68 to \$11.17 per square foot of gross building area. The subject's improvement assessment of \$9.15 per square foot of gross building area falls within the

range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and holds that a reduction in the subject's assessment based on assessment inequity is not justified.

The appellant also contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be the appellant's comparable sale(s) #1, and the board of review comparable sale(s) #1 and #2. These comparables sold for prices ranging from \$76.09 to \$234.56 per square foot of living area, including land. The Board finds the appellant's suggested sale #2, sold in 2014, was not recent. The Board finds the board of review's suggested sale properties #1 and #2 sold more recently to the lien year. The subject's assessment reflects a market value of \$108.21 per square foot of living area including land, which is within the range established by the best comparable sales in this record. Based on this evidence, the Board finds a reduction in the subject's assessment based on overvaluation is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
