

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Douglas Balsam
DOCKET NO.: 18-20854.001-R-1
PARCEL NO.: 05-07-217-039-0000

The parties of record before the Property Tax Appeal Board are Douglas Balsam, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$33,210
IMPR.: \$163,492
TOTAL: \$196,702

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of masonry exterior construction with 5,667 square feet of living area. The dwelling is approximately 13 years old and features a full finished basement, central air conditioning, five fireplaces and a 3-car garage. The subject is located in Glencoe, New Trier Township, Cook County. It is classified as a Class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables. The comparables are improved with Class 2-09 dwellings of masonry exterior construction ranging in size from 7,719 to 10,731 square feet of living area. The dwellings are 93 or 98 years old. Each comparable has a partial or full finished basement with two having finished area; central air conditioning; four or five fireplaces; and a 2-car, a 3.5-car or a 4-car

garage. The comparables have improvement assessments ranging from \$151,608 to \$238,317 or from \$19.64 to \$22.21 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$120,764 or \$21.31 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$196,702. The subject property has an improvement assessment of \$163,492 or \$28.85 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. The comparables are improved with Class 2-09 dwellings of masonry exterior construction ranging in size from 5,319 to 6,122 square feet of living area. The dwellings range in age from 10 to 16 years old. Each comparable has a full basement with two having a finished area, central air conditioning, three to five fireplaces, and a 3-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$153,453 to \$210,207 or from \$28.85 to \$37.05 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to significant differences in the dwellings older ages and larger sizes when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the board of review comparables because they are most similar in location, design, exterior construction, age, dwelling size, and most features. These four comparables have improvement assessments ranging from \$28.85 to \$37.06 per square foot of living area. The subject's improvement assessment of \$28.85 per square foot of living area falls at the lower end of the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
