

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Shanley
DOCKET NO.: 18-20893.001-R-1
PARCEL NO.: 05-34-401-008-0000

The parties of record before the Property Tax Appeal Board are Mark Shanley, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,200
IMPR.: \$63,298
TOTAL: \$78,498

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 2,117 square feet of living area. The dwelling is approximately 98 years old. Features of the home include a partial unfinished basement, central air conditioning, and a fireplace. The property has an 8,000 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-05 dwellings of frame or frame and masonry exterior construction that range in size from 1,785 to 1,864 square feet of living area and range in age

from 74 to 118 years old. Each comparable has a full unfinished basement, one fireplace and a one-car to a two-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$42,365 to \$44,297 or from \$23.04 to \$23.97 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$50,025 or \$23.63 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$78,498. The subject has an improvement assessment of \$63,298 or \$29.90 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-05 two-story dwellings of stucco exterior construction that range in size from 1,893 to 2,106 square feet of living area and range in age from 96 to 102 years old. Each comparable has a partial or a full unfinished basement, one fireplace and a one-car or a two-car garage. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$66,185 to \$73,328 or from \$31.43 to \$36.76 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables and board of review comparable #3 due to their smaller dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #2 and #4 which are more similar to the subject in dwelling size and have features with varying degrees of similarity to the subject. These comparables have improvement assessments ranging from \$66,185 to \$73,328 or from \$31.43 to \$35.22 per square foot of living area. The subject has an improvement assessment of \$63,298 or \$29.90 per square foot of living area, which is below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds that the subject's improvement assessment appears to be equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
