

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anthony Grossi
DOCKET NO.: 18-20900.001-R-1
PARCEL NO.: 04-12-201-039-0000

The parties of record before the Property Tax Appeal Board are Anthony Grossi, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,936
IMPR.: \$34,023
TOTAL: \$53,959

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry exterior construction with 2,195 square feet of living area. The dwelling is approximately 60 years old. Features of the home include a partial basement with a recreation room and a two-car garage. The property has a 14,240 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-34 dwellings of masonry or frame and masonry exterior construction that range in size from 1,910 to 2,574 square feet of living area and range in age from 48 to 61 years

old. Each comparable has a partial or a full basement with a recreation room, central air conditioning, one or two fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$27,806 to \$34,684 or from \$13.47 to \$15.47 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$31,828 or \$14.50 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$57,734. The subject has an improvement assessment of \$37,798 or \$17.22 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same assessment neighborhood code and same block as the subject. The comparables are improved with class 2-34 multi-level dwellings of frame and masonry exterior construction that range in size from 1,690 to 2,336 square feet of living area and range in age from 56 to 61 years old. Each comparable has a partial basement with a recreation room, central air conditioning, one or two fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$26,989 to \$38,474 or from \$15.97 to \$21.79 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven equity comparables for the Board's consideration that are similar to the subject in location and age. The Board gave less weight to appellant's comparable #1 along with board of review comparables #1, #2 and #3 due to their differences in dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparable #2 and #3 along with board of review comparable #3 which are more similar to the subject in dwelling size and being similar in location, age and most features. These comparables have improvement assessments ranging from \$27,806 to \$38,474 or from \$14.56 to \$16.47 per square foot of living area. The subject has an improvement assessment of \$37,798 or \$17.22 per square foot of living area, which is within range on an overall improvement assessment basis established by the best comparables in this record but above the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
