

# FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Daniel Gruesser
DOCKET NO.: 18-20958.001-R-1
PARCEL NO.: 05-31-315-022-0000

The parties of record before the Property Tax Appeal Board are Daniel Gruesser, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds <u>a reduction</u> in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$15,184 **IMPR.:** \$77,000 **TOTAL:** \$92,184

Subject only to the State multiplier as applicable.

#### **Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

## Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction with 5,466 square feet of living area. The dwelling is approximately 76 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and an attached 2.5-car garage. The property has a 15,984 square foot site and is located in Glenview, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with class 2-09 dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 5,256 to 5,916 square feet of living area. The homes range in age from 50 to 103 years old. Each property has a full or partial basement with two

having a recreation rooms; central air conditioning; 2, 4, or 5 fireplaces; and a 2,  $2\frac{1}{2}$  or a 3-car garage. None of the comparables have the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$62,797 to \$81,999 or from \$11.23 to \$14.24 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$70,839.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$104,931. The subject property has an improvement assessment of \$89,747 or \$16.42 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story or three-story dwellings of frame or frame and masonry exterior construction ranging in size from 3,118 to 3,807 square feet of living area. The homes range in age from 57 to 80 years old. Three comparables have a partial or full basement with one having a recreation room, and one comparable has a slab foundation. Each property has central air conditioning, one or two fireplaces, and a 1-car to a 3-car garage. Each comparable has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$54,511 to \$75,258 or from \$17.41 to \$19.77 per square foot of living area.

#### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did met this burden of proof and a reduction in the subject's assessment is warranted.

Despite the fact the appellant's comparables have different assessment neighborhood codes than the subject property, the Board finds the best evidence of assessment equity to be the comparables submitted by the appellant. The appellant's comparables are more similar to the subject dwelling in size than are the comparables submitted by the board of review. The appellant's comparables have improvement assessments that range from \$62,797 to \$81,999 or from \$11.23 to \$14.24 per square foot of living area. The subject's improvement assessment of \$89,747 or \$16.42 per square foot of living area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
