

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Smith
DOCKET NO.: 18-20962.001-R-1
PARCEL NO.: 05-34-305-002-0000

The parties of record before the Property Tax Appeal Board are Richard Smith, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,535
IMPR.: \$44,722
TOTAL: \$59,257

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story¹ dwelling of frame and masonry exterior construction with 2,339 square feet of living area. The dwelling is approximately 113 years old and has a full unfinished basement. Other features include central air conditioning and a 2-car garage. The property has an 8,550 square foot site and is in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on nine equity comparables with the same neighborhood code as the subject property. The comparables are improved with Class 2-04 dwellings of frame, masonry, stucco, or frame and masonry exterior

¹ The appellant describes the subject as a "1.5-1.9 residence."

construction ranging in size from 1,870 to 2,648 square feet of living area. The dwellings range in age from 90 to 133 years old, and each comparable has a full basement with four having finished area. Five comparables each have central air conditioning, four comparables each have one fireplace, and eight comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$32,051 to \$42,506 or from \$16.05 to \$17.64 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$40,371 or \$17.26 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,257. The subject property has an improvement assessment of \$44,722 or \$19.12 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject. The comparables are improved with Class 2-04 dwellings of frame, masonry, or stucco exterior construction ranging in size from 2,400 to 2,625 square feet of living area. The dwellings range in age from 95 to 114 years old. Each comparable has a full basement with one having finished area. Three comparables each have central air conditioning and one or two fireplaces. Each comparable has either a 2-car, a 2.5-car, or a 3-car garage. The comparables have improvement assessments ranging from \$49,740 to \$53,520 or from \$19.88 to \$22.30 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted thirteen suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2, #4, #6 and #9 and the board of review comparables #1 and #2 due to the dwellings significantly smaller or larger dwelling sizes when compared to the subject dwelling. In addition, the appellant's comparable #2 also lacks a garage, unlike the subject.

The Board finds the best evidence of assessment equity to be both parties' remaining comparables. These six comparables received greater weight because they are closer in dwelling size to the subject dwelling and have other similar features when compared to the subject property. These six comparables have improvement assessments ranging from \$17.14 to \$22.30 per square foot of living area. The subject's improvement assessment of \$19.12 per square foot of living area falls within the range established by these comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
