

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Terry Herman
DOCKET NO.: 18-21206.001-R-1
PARCEL NO.: 11-19-411-012-0000

The parties of record before the Property Tax Appeal Board are Terry Herman, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,407
IMPR.: \$47,122
TOTAL: \$58,529

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story multi-family building of stucco exterior construction with 4,094 square feet of living area. The dwelling is approximately 117 years old. Features of the property include a full unfinished basement and a two-car detached garage. The property has an 8,450 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with class 2-11 buildings of masonry exterior construction ranging in size from 4,380 to 9,996 square feet of living area. The buildings range in age from 99 to 103 years old. Each property has a full unfinished basement and a 2-car, 3-car or 4-car garage. Two

comparables have central air conditioning. Each comparable has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$46,086 to \$129,474 or from \$10.52 to \$12.99 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$47,122.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,495. The subject property has an improvement assessment of \$56,088 or \$13.70 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with class 2-11 two-story buildings of frame or masonry exterior construction ranging in size from 2,292 to 3,076 square feet of living area. The buildings range in age from 108 to 112 years old. Each property has a full unfinished basement, and three properties have a 2-car or 3-car garage. Each comparable has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$29,246 to \$53,399 or from \$12.32 to \$18.55 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did meet this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven comparables to support their respective positions that have the same classification code and neighborhood code as the subject property. All the comparables have buildings that are similar to the subject building in age and most features, however, only two of the comparables are similar to the subject building in size. Based on similarity in size, the Board finds the best evidence of assessment equity to be appellant's comparables #1 and #2. These comparables have improvement assessments of \$46,086 and \$52,305 or \$10.52 and \$11.02 per square foot of living area, respectively. The subject's improvement assessment of \$56,088 or \$14.70 per square foot of living area falls above the two best comparables in this record. Less weight is given remaining comparables due to differences from the subject building in size. Based on this record the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
