

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Beth Dustman  
DOCKET NO.: 18-21251.001-R-1  
PARCEL NO.: 05-17-300-058-0000

The parties of record before the Property Tax Appeal Board are Beth Dustman, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$46,796  
**IMPR.:** \$119,340  
**TOTAL:** \$166,136

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of frame construction with 5,100 square feet of living area. The dwelling is approximately 101 years old. Features of the home include a partial basement with a recreation room, central air conditioning, two fireplaces and an attached two-car garage. The property has a 23,998 square foot site and is located in Winnetka, New Trier Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with class 2-09 properties of frame construction ranging in size from 5,804 to 10,465 square feet of living area. The homes range in age from 13 to 128 years old. Each comparable has a full unfinished basement, two or three fireplaces, and either a 2-car or 3-

car garage. Two comparables have central air conditioning. Each comparable has the same assessment neighborhood code as the subject property. The comparables have improvement assessments ranging from \$101,085 to \$168,950 or from \$13.73 to \$17.64 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$80,784.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$166,136. The subject property has an improvement assessment of \$119,340 or \$23.40 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables improved with two-story dwellings of frame or frame and masonry exterior construction ranging in size from 5,009 to 5,110 square feet of living area. The homes range in age from 28 to 103 years old. Each property has a full or partial unfinished basement, one or two fireplaces, and a 2-car, 3-car, or 3.5-car garage. Two comparables have central air conditioning. Each comparable has the same assessment classification code and neighborhood code as the subject property. The comparables have improvement assessments ranging from \$130,662 to \$143,713 or from \$26.07 to \$28.69 per square foot of living area.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on six comparables with the same classification code and neighborhood code as the subject property. The Board gives less weight to the appellant's comparables due to differences from the subject dwelling in size, being approximately 14% to 105% larger than the subject dwelling. The Board gives most weight the board of review comparables as they are most similar to the subject dwelling in size. The comparables have improvement assessments that range from \$130,662 to \$143,713 or from \$26.07 to \$28.69 per square foot of living area. Board of review comparables #1 and #2 are most similar to the subject dwelling in age and have improvement assessments of \$135,517 and \$130,662 or \$26.52 and \$26.07 per square foot of living area, respectively. The subject's improvement assessment of \$119,340 or \$23.40 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
