

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Eris Erkoca  
DOCKET NO.: 18-22103.001-R-1  
PARCEL NO.: 11-32-327-034-0000

The parties of record before the Property Tax Appeal Board are Eris Erkoca, the appellant, by attorney Spiro Zarkos, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,842  
**IMPR.:** \$42,712  
**TOTAL:** \$48,554

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story, multi-family building of masonry exterior construction with 3,628 square feet of building area. The building is approximately 104 years old. Features include a full basement with an apartment and a 2-car garage. The property has a 3,075 square foot site and is located in Chicago, Rogers Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 8,831 to 11,316 square feet of building area. The buildings

range in age from 48 to 106 years old and have full basements, one of which has an apartment. One comparable has central air conditioning. Three comparables have either a 2-car or 3.5-car garage. The comparables have improvement assessments ranging from \$66,629 to \$92,395 or from \$7.31 to \$8.17 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$27,664 or \$7.63 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,554. The subject has an improvement assessment of \$42,712 or \$11.77 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story, class 2-11 buildings of masonry exterior construction ranging in size from 3,158 to 3,508 square feet of building area. The buildings range in age from 94 to 102 years old and have full basements, one of which has an apartment. Each comparable has a 1-car or 2-car garage. The comparables have improvement assessments ranging from \$43,650 to \$49,098 or from \$13.50 to \$14.00 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to significant differences in their building size when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are most similar to the subject in age, building size, and some features. These four comparables have improvement assessments ranging from \$43,650 to \$49,098 or from \$13.50 to \$14.00 per square foot of building area. The subject's improvement assessment of \$42,712 or \$11.77 per square foot of building area falls below the range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
