

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Was Bogdan
DOCKET NO.: 18-23404.001-R-1
PARCEL NO.: 09-32-213-049-0000

The parties of record before the Property Tax Appeal Board are Was Bogdan, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,452
IMPR.: \$38,688
TOTAL: \$43,140

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 4,928 square feet of building area. The building is approximately 51 years old and has a full basement with an apartment. The property has a 5,936 square foot site and is located in Rosemont, Maine Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on six equity comparables that are located within the same neighborhood code and the same block as the subject property or from .02 to .05 of a mile from the subject property. The comparables are improved with two-story class 2-11 multi-family buildings of masonry exterior construction with 4,928 square feet of building area. The buildings are each 51 years old and have full basements

with apartments. The comparables have improvement assessments ranging from \$35,200 to \$36,861 or from \$7.14 to \$7.48 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$35,951 or \$7.30 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,140. The subject property has an improvement assessment of \$38,688 or \$7.85 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. Comparable #4 is located .25 of a mile from the subject property. The comparables are improved with class 2-11, one-story or two-story multi-family buildings of frame or masonry exterior construction ranging in size from 1,496 to 4,928 square feet of building area. The buildings range in age from 48 to 105 years old. One comparable has a concrete slab foundation, and three comparables have full basements with two comparables finished with an apartment or a formal recreational room. One comparable has a 2.5-car garage. The comparables have improvement assessments ranging from \$15,042 to \$39,902 or from \$8.10 to \$10.21 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten suggested comparables for the Board's consideration. The Board gives less weight to the board of review comparables #1 through #3 due to dissimilarities in their building size, age, foundation and/or other features when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables as well as the board of review's comparable #4. These comparables are similar in location to the subject and are practically identical in property characteristic to the subject property. These seven comparables have improvement assessments ranging from \$35,200 to \$39,902 or from \$7.14 to \$8.10. The subject's improvement assessment \$38,688 or \$7.85 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
