

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Maciej Szaflarski
DOCKET NO.: 18-24783.001-R-1
PARCEL NO.: 18-12-404-023-0000

The parties of record before the Property Tax Appeal Board are Maciej Szaflarski, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,208
IMPR.: \$15,743
TOTAL: \$17,951

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of masonry exterior construction with 2,976 square feet of living area. The dwelling is approximately 54 years old. Features of the property include a concrete slab foundation. The property has a 3,840 square foot site and is located in Summit, Lyons Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of the improvement assessment inequity argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with 2-story class 2-11 dwellings of masonry or frame and masonry exterior construction with either 2,453 or 2,976 square feet of living area. The dwellings are either 54 or 62 years old. Four comparables lack basements and one

comparable has a full basement with finished area. The comparables have improvement assessments ranging from \$12,737 to \$17,677 or from \$4.28 to \$5.94 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$15,743 or \$5.29 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$20,213. The subject property has an improvement assessment of \$18,005 or \$6.05 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved two, 1.5-story and two, 2-story class 2-08 dwellings of frame or masonry exterior construction ranging in size from 1,750 to 4,032 square feet of living area. The dwellings range in age from 12 to 89 years old. Each comparable has a full or partial basement, two of which have finished area or an apartment. Three comparables have either a two-car or a three-car garage. The comparables have improvement assessments ranging from \$12,547 to \$34,312 or from \$7.12 to \$8.51 per square foot of living area. Based on the foregoing evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables #3 and #4, as well as the board of review comparables due to their differences from the subject in age, dwelling size, basement foundations and/or other features.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2 and #5 which are identical to the subject in age, dwelling size and features. These comparables have improvement assessments ranging from \$12,737 to \$17,677 or from \$4.28 to \$5.94 per square foot of living area. The subject's improvement assessment of \$18,005 or \$6.05 per square foot of living area falls above the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
