Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a multi-level dwelling of frame and masonry exterior construction with 1,246 square feet of living area. The dwelling is approximately 48 years old. Features of the home include a partial basement with finished area and a two-car garage. The property has a combined 7,500 square foot site and is located in Willow Springs, Lyons Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject property. The comparables are improved class 2-34 dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 1,170 to 1,398 square feet of living area. The dwellings range in age from

43 to 77 years old. Each comparable has a partial basement with finished area. One comparable has central air conditioning and two comparables each have a two-car garage. The comparables have improvement assessments ranging from \$12,325 to \$17,309 or from \$9.77 to \$12.38 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced to \$16,257 or \$10.34 per square foot of living area.

The appellant submitted a copy of the final decision of the Cook County Board of Review dated April 1, 2019 for the 2018 assessment year concerning the two parcels which depicts assessments of \$9,855 for Parcel #1 (PIN 18-33-400-006-0000) and \$9,855 for Parcel #2 (PIN 18-33-400-007-0000). The subject's two parcels have a combined total assessment of \$19,710 and a total improvement assessment of \$16,336 or \$13.11 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" providing assessment information on only one parcel under appeal. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-34 dwellings of frame or frame and masonry exterior construction ranging in size from 1,204 to 1,296 square feet of living area. The comparables range in age from 40 to 51 years old. Each comparable has a partial basement with finished area and a two-car garage. Three comparables each have central air conditioning and two comparables each have one fireplace. The comparables have improvement assessments ranging from \$16,684 to \$18,780 or from \$12.88 to \$15.60 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to their older ages and/or lack of garages when compared to the subject. The Board finds the best evidence of assessment equity to be the board of review's comparables which are similar to the subject in age, dwelling size and features. These comparables have improvement assessments ranging from \$16,684 to \$18,780 or from \$12.88 to \$15.60 per square foot of living area. The subject's total improvement assessment of \$16,336 or \$13.11 falls slightly below the range established by the best comparables in this record on an overall basis but within the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
