

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marc Christman
DOCKET NO.: 18-25081.001-R-1
PARCEL NO.: 04-23-401-014-0000

The parties of record before the Property Tax Appeal Board are Marc Christman, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,475
IMPR.: \$39,631
TOTAL: \$66,106

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story frame exterior construction with 2,893 square feet of living area. The dwelling is approximately 75 years old. Features of the home include a partial basement with finished area, central air conditioning, two fireplaces and a 2-car garage. The property has a 44,126 square foot site and is located in Northfield, Northfield Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with class 2-06 dwellings of frame or frame and masonry exterior construction ranging in size from 2,553 to 3,885 square feet of living area. The comparables are 64 to 116 years old.

Each comparable has an unfinished partial basement, central air conditioning and a 2-car or a 2.5-car garage. One comparable has three fireplaces. The comparables have improvement assessments ranging from \$30,507 to \$46,432 and either \$11.31 or \$11.95 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$33,964 or \$11.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,106. The subject property has an improvement assessment of \$39,631 or \$13.70 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry exterior construction ranging in size from 2,972 to 3,412 square feet of living area. The comparables range in age from 75 to 79 years old. The comparables each have a full or partial basement, two of which have finished area. Each comparable has central air conditioning, one fireplace and from a 1.5-car to a 4-car garage. The comparables have improvement assessments ranging from \$51,902 to \$62,048 or from \$16.40 to \$20.70 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to their larger dwelling sizes and/or older age when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are relatively similar to the subject in age, dwelling size and features. These comparables have improvement assessments ranging from \$51,902 to \$62,048 or from \$16.40 to \$20.70 per square foot of living area. The subject's improvement assessment of \$39,631 or \$13.70 per square foot of living area falls below the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
